NURS 128: Evidence-based Nursing Practice – RN to BS section

This course focuses on research methodology and terminology related to nursing process and evidence based nursing practice.

Summary of course re-design activities

We will re-design curriculum activities, and develop assessment and evaluation plans, as part of a conversion of NURS 128, Evidence-based Nursing Practice, into a hybrid format.

Moving this course, which is one of the first courses that the incoming RN to BS in Nursing students take, will provide greater flexibility that these working nurse adult learners need to be successful.

Brief description of the course and its place in the curriculum

NURS 128 is a two-unit course and, and one of three required courses that incoming RN to BS in Nursing students take when working towards their BS in Nursing.
