## **INFORMATION TO USERS**

This manuscript has been reproduced from the microfilm master. UMI films the text directly from the original or copy submitted. Thus, some thesis and dissertation copies are in typewriter face, while others may be from any type of computer printer.

The quality of this reproduction is dependent upon the quality of the copy submitted. Broken or indistinct print, colored or poor quality illustrations and photographs, print bleedthrough, substandard margins, and improper alignment can adversely affect reproduction.

In the unlikely event that the author did not send UMI a complete manuscript and there are missing pages, these will be noted. Also, if unauthorized copyright material had to be removed, a note will indicate the deletion.

Oversize materials (e.g., maps, drawings, charts) are reproduced by sectioning the original, beginning at the upper left-hand corner and continuing from left to right in equal sections with small overlaps.

Photographs included in the original manuscript have been reproduced xerographically in this copy. Higher quality 6" x 9" black and white photographic prints are available for any photographs or illustrations appearing in this copy for an additional charge. Contact UMI directly to order.

## ABSTRACT

### CHORAL SETTINGS OF PSALM 150 OF THE TWENTIETH CENTURY AN ANNOTATED LIST

by John Koza

This project report is a listing of S.A.T.B. (Soprano, Alto, Tenor, Bass) choral settings of Psalm 150. Each annotation specifies composer, arranger, title, publisher, instrumentation, level of accessibility, language of the text and approximate duration, if available. Additionally, the annotation indicates whether or not the piece is currently in print.

The purpose of this study is to compile a comprehensive annotated list of choral literature of the twentieth century that utilizes the Psalm No. 150 for its text. This study provides a valuable resource for choral directors, as there is no comprehensive list of this kind in existence. The few partial lists that do exist contain outdated information regarding publishers as well as pieces that are out of print and are, therefore, more difficult to obtain. The scope of this work includes only SATB arrangements of the Psalm 150. Languages for the literature is limited to English and Latin, these being the most prominent languages used by composers of Psalm No. 150 settings. The years of composition are limited to 1900 to present.
