INTRODUCTION

The San José State University Society of American Archivists Student Chapter (SAASC) is pleased to submit to the Society of American Archivists (SAA) Executive Council the 2010-2012 Annual Report on achievements and events.

After a period of relative inactivity, the SAASC officers for the 2010-2011 academic year precipitated increased student engagement in and activity by the chapter. In the following year, SAASC has continued to engage students in the SJSU SLIS Management, Digitization and Preservation of Cultural Heritage and Records (Archival Studies and Records Management) career pathway, encouraging online and in-person involvement in chapter activities.

Our goal for the 2011-2012 academic year was to build on the previous year's efforts to connect archival studies and records management students with professionals in the field, and to provide opportunities for the students to supplement their education with practical experiences.

The document below summarizes SAASC chapter information, as well as notable achievements and events during the academic years spanning 2010-2012.

The following is a list of SAASC Members during the 2011-2012 academic year, comprised of the students who are enrolled in the SAASC Group Site on D2L, our online learning interface. All members of the chapter are not necessarily members of SAA.
