Lack of Access for Medically Underserved Populations

Goal:

Examine social and economic disparities due to a lack of access as determinants of health among underserved individuals and populations.

Objectives:

After completing its module, you will be able to:

- Discuss issues that affect access to healthcare and health services in your selected MUP.
- Demonstrate how you might overcome or adapt to these issues within the context of your MUP.
- Distinguish any common themes between your population and the population discussed by Ames (2007).

Assignment: Lack of Access Discussion Board

- Post a picture that depicts the lack of access to healthcare for an medically underserved population. For example, structural barriers, neighborhoods, transportation, or food deserts. Explain why you choose this picture.
- Please respond to at least one colleague.
