Students State Their Case

This material is personal between the Executive Board and the students, outside readers are requested not to make use of it in any way.

Quite recently, several students embarked on a campaign to enlighten the student body as to the financial status of our institution. They had grievances and still have them, but through misunderstanding, several students and officials have been placed on the "spot".

What the Students Wanted
The students, through their desire to accomplish the complete removal of the air of secrecy surrounding student financials, have been quoted and misquoted. The general air of mystery still prevails over some of the things the Executive Board has asked enlightenment upon, and it feels that all situations should be placed squarely before the students and public.

Here is what We Ask
The following is the list that the executive board holds against the office of the controller.
1. The salary board should be re- created, and students should have at least a minority vote on the board.
2. High cost of administration in comparison to work done is unnecessary. Adjustment of salaries should be made.
3. The Student Affairs budgets were never up for Ambrose Nichols and Si Simoni. The budgets should be always kept up to date.
4. Large accounts not put to competitive bids. Outstanding examples are last year's La Torre and Senior Printing. Senior Printing was never up for competitive bid until last year.
5. Unreasonable explanations why no radios may be had in the Health Cottage and the names of Health Cottage individuals cannot be published in the Times.
6. Why the Times was allowed to have a $238.37 deficit Committee given at the Friday night meeting.
7. Why the Times was allowed to have a $238.37 deficit Committee given at the Friday night meeting.
8. Why expenditures have been made from the general fund without written approval of Executive Board according to Art. V of Financial Statutes.
9. Why a purchase order account is not kept so that a fairly approximate report may be had at anytime on demand.
10. Why a Health representative was unable to get a financial report when promised.

The Complete Case
These are all the grievances against the controller's office. We are perfectly serious in our efforts, and desire to clear up the situation now prevailing. We are particularly desirous of having complete financial reports and knowledge of expenditures at our disposal. A lack of those essentials in the past has led to trouble in staying within certain budgets.

We Have Been Misquoted
We have not demanded the removal of Mr. Thomas from office. We do, however, ask frequent financial reports and knowledge of expenditures in the controller's office. None of these requests are beyond the realm of reason, and the executive board feels that they will be complied with.

We Cannot Remove Officials
Any request of either controller or faculty advisor, however, lies entirely with Mr. MacQuarrie, and not with the executive board. The board has made certain requests. Many have been complied with—some have not, and it is the wish of the executive board that those items that have not as yet received consideration, will be attended to as soon as possible.

EXECUTIVE BOARD TO PROTEST

Student members of the Executive board met last night at their office in the California Educational Research Association building to plan a proper program for the coming days.

Modern art exhibitions and performances have been quoted and misquoted. The general air of mystery still prevails over some of the things the Executive Board has asked enlightenment upon, and it feels that all situations should be placed squarely before the students and public.

Happy day dawned for the famed Golden. There was Soapy John liable in any and all informs', and a mystery after Saturdays night on the local court. down upon a Louisiana delta and sleepy sks groaned and attained an attitude of a,,umulate points for San Jose State Board Artist.

A Great Day Dawned

One dearer thing After Others

The Swim Coach decided, things might be worse. He still has his Downer, Britcher, Holt, Fry, and several of others of no mean skills. There came a deary winter storm, and God, Soapy's outstanding diver, and the best in the region, packed his cold toes and prepared to be sent home. He was called home for personal reasons, and once again Charlie took over one on the other.

The swim pool

And then the storm, Ky Martin declared indecisively cast on shore with a howl of swift snow, and there went one of the school's latest and more prominent artists. Charlie grayed and attained their一股 of no mean skills. There came a deary winter storm, and God, Soapy's outstanding diver, and the best in the region, packed his cold toes and prepared to be sent home. He was called home for personal reasons, and once again Charlie took over one on the other.

Gamblers date the "simple tart" as that, 'a victory tens in the shoulders of the same (Ormannon was our's to win."

San Jose Rutgers in 17-8 Win Over Bear

Coach Tom Price's San Jose Rutgers won again last Saturday afternoon, 17-8 over a Stanford Varsity in senior, and a win over Coach Ed Graf's Cal Lions.

Gamer

The game was held at half-time with a network 5-3, price's team was down 5-2 in the second half and retained the lead throughout. Price was able to bring the game home with a few seconds to win 17-8.

Cardio second first season in the opening period. In the final period, Ramsey, Bowens, and Weed scored, with McArthur knocking in the winning goal with less than a minute left in the game.

All of the Golden Bear's scores came in the last five minutes when Ramsey came on and proved valuable on the field. Ramsey, Bowens, and Weed scored, with McArthur knocking in the winning goal with less than a minute left in the game.

Last Saturday the field was packed

The great defensive showing of the San Jose outfit was due to the aggressiveness with which the forward line attacked, and a rather attractive and sound backfield that proved to be a very good work for the locals tonight.

The "running around" of Carl Biddle is going to add in going the Spartan bat a victory, if the mountain men remain in this last week's-style combination.

With Coughanour, Holm, Biddle, Lederbost, and Roffold the outstanding combination of his three previous conference games, McDonald places a huge portion of the burden of finishing off a victory on the shoulders of the same five.

Undecided as to who will start the night, Coach Henry Macdonald leaves the choice to Soapy John to call his players in hopes of doing "best bat a victory combination."

French Society To Present Play
Feb. 9

A modern French play, the first ever attempted by the French hon-
society, will be presented in the little theater on February 9. "Ces Dames
et Ces Messieurs" is a full-fledged farce play with good characters and
plenty of action.

Important Undertaking

The play is quite an important un-
dertaking, both from the point of view
of publicity and of foreign language
study. Students from the modern lan-
guage departments of Stanford and Cal-
ifornia are coming down to attend the
performance. For those who do not un-
guaranteed talk French, there will be a
local but complete synopsis of the action
as its proceeds. For the rest, the play
speaks for itself.

Lahavardi Directs

The play is under the direction of
Mr. Lahavardi of the Modern Lan-
guage department. Hugh Gillis and Tho-
mas McCord of the Speech Arts de-
partment are assisting with the pro-
duction. Mr. Gillis is in charge of the
stage work, and Hugh Gillis is in charge
of publicity.

Financial Drive Is Optimistic; Teaching Placements Increase

From the Appointment Office comes
further encouragement that prosperity
is growing around the well known college.
According to Miss Lydia Jones, depart-
ment secretary, the calls from school
superintendents during the past month
alone have more than tripled the total
of last year. Requests for teachers have
come in steadily, and Miss Jones feels most optimistic concerning the
coming months.

Miss Jones has just received a very
successful trip through central and
northern California, where she visited
the graduates of San Jose State who are
holding teaching positions in the various
counties, and states that she finds condi-
tions very promising.

Admission for students at any school
is only ten cents, and for the other
tickets the price is twenty-five cents. Tickets
are on sale at the Business Office, Sher-
mans City's, and by members of the
society.

The members of the cast are all hon-
or society French majors who have
very definite dramatic ability. Evelyn
doctor, and Frieda Czudzie are the
actress.

APPOINTMENT OFFICE IS IMPORTANT: TEACHING PLACEMENTS INCREASE

OPTIMISTIC: TEACHING PLACEMENTS INCREASE

Spartan Knight Votes Result In Triple Tie

The Spartan Knights election, held
Tuesday night, turned out to be a
complete tie-up between all three of the
candidates for President: Hugh Stu-
Bark, Bob Stickle, and Carl Peterson.
Each received the same number of votes,
which calls for another election to be
held in the near future. As none of the
votes cast were in proxy form, a
committee has been appointed to in-
vestigate the original constitution as re-
gard the matter. The committee will
report before another election is held.

They Satisfy—

You know, that means something

By "balancing" 6 different types of
home-grown tobaccos—

By adding just the right amount
of the right kinds of Turkish—

By blending and cross-blending—

"welding" these tobaccos together—

We believe we have in Chester-
field a cigarette that's milder and
tastes better.

"They Satisfy" has always seemed
to us the best way of describing
what we mean by this milder better
taste.

Communications

The periodic ‘bull sessions’ which we students engage in during our spare (?) moments have added two new subjects of interest to the other topics of the day. I write this letter because these new ‘topics’ pertained to our College Times.

First, a real compliment is handed you for the evident showing of the new organized staff and written service of the paper. At last our dreams have come true of having reporters on the job ready to receive and write down news. In the past, articles have been submitted and unprinted, or printed late, or had their contents so mixed as to be entirely misrepresentative of the original. But this may have been due to an overworked staff of too small proportions. We hope you keep up this spirited reporter service and wish you success.

Then there is the other side about this comment on our College Times. That is, that our college paper seems to be in the hands of a high-powered (maybe highly-powdered) press agent, who ostensibly is promoting certain people on the campus that would do harm even to Greta Garbo or Ramon Navarro. Day after day, in issue after issue, we notice a steady pumping of incidents, illustrations, metaphors, and other articles about these personalities and it is interesting and good reading (Much better than ‘Tattletales’ and ‘Oddities’ referred to in the editorial of the SAlvador Mail—Sgkin. We’re glad for both of you, but we would like to know what happened, actually, to the Sanders mailbox the other Saturday night.

What on earth could have happened to super-man Dan Cavanaugh? He took a nip to the S. B. dance the other P. M. Now he’s in the Hospital Cottage. Why suppose he really fell?

What’s the young lady that half of the freshman class is asking dates with? The initials are D. M., boys. It doesn’t seem necessary to add that you’ll better hurry and line up.

Frosh Van Dieten is that way about his Materna—4211. Just another of those merry princes, boys.

News Flash—Steve Murdock spends a ‘flop’ (He told her to get out of his way?). There’s hope for all of you.

Despite persistent demands by Leona Bull Cerde that she’s even interested in anyone, she was testifying paying with her husband Franky the other evening.

Ruth Clawson is very much out of circulation. She’s been married since November, she says—it’s a better way of getting her on at least, he works in a bank. Hard times follow.

And in conclusion—may we point this out to the Tattle Tale the other day—‘You are quite wrong in that thinking that Fred Hooper’s girl friend is living with him around the town. The old fella is being left and regardless of any appearance, it’s a case of Ho, Ha, yee to my power.’ Signed, The Girl Friend in Question.

No man is civilized unless he has discarded, just as we have to discard until it has a moral standard we must ignore taxation until we have a moral dignity to live on. The generation that came before us paralyzed with the tradition and economic snare and last but it has to be stopped.

Can anyone regard it as justified when the children pay the penalty and the parents get the gain?

Sincerely yours,
W. S. H.

Answer to Communication:

In the estimation of a small group of students, the ‘Times’ has been building up certain individuals as possible student body officers. This is not the case. There are several students who would look upon the recent financial upheaval as a fine means of promoting personal publicity.

We wish to say that not one of those male up in the affair is out for anything like personal glory. They are trying to help the students of San Jose State to properly understand the financial situation of the institution.

It is an old device, this ‘crucifying’ of those who would work for the good of the whole. It began ages ago and still seems to be in vogue.

It is not the aim of those who have the interests of the school in mind to obtain cheap publicity by messing up something that is above reproach. It is, however, their intention to clarify the situation surrounding student finances. There are grievances of not too great a nature, but they do need changing, and if a thing needs changing, why should anyone be ‘crucified’ when it attempts to right a wrong.

The ‘Times’ is not in the business of ‘building up’ any individual for a political office. It is the organ of the students and it is such, it attempts to present the situation to the students. It is entirely up to the students to form their own opinions.

In the present situation, four students are labeled as political aspirants simply because they wish to better conditions. Of these four only one could possibly run for office, for the simple reason that one is graduating, and if a third will be busy with other things certainly the accusations of ‘political aspirants’ cannot be rightly hung upon these men.
