Tompkins Plan Subject Of Talk By President Before Women Voters

As a meeting of the League of Women Voters held at the Hotel St. Claire on Monday afternoon, Dr. T. M. Stotz, secretary and general counsel of the League of Women Voters, delivered a two-hour address on the subject of "The Origin of the League of Women Voters." The meeting was called by Mrs. Alice Tompkins, president of the local chapter, and was attended by a large number of members. Stotz explained that the league was founded in 1920 and has been active in promoting women's suffrage and other issues since then. He discussed the role of women in politics and the importance of having women's voices represented in government. The meeting concluded with a question-and-answer session, during which members had the opportunity to ask Stotz questions about the league's work and efforts to promote women's rights.

Fresh C 10, Sender B 21.

TONIGHT'S GAMES

Spartan League

Thurs. Feb 8
7 pm—South C vs Post Grade.
8 pm—Post Grade vs Fresh D.
Gold & White League

Thurs. Feb 8
7 pm—Fresh D vs Soph A.
8 pm—Spartan vs Sender B.
9 pm—Sender C vs Fresh C.

Water polo practice games are now
being held each Monday, Wednesday,
and Friday at 3 p.m. No practice—
just go to the pool and you are
sure to get a real good workout
for the games which opening up will
take place next week.

The basketball schedule is fast ap-
proaching the final games. No teams
are as yet picked for the champion because
there are several who are running out
in the lead with quite marked evenness.
A slip up or a lucky basket of two may
mean win or lose when the final whis-
tie has blown.

There have been a couple of cases
where fellows have come out and played
for a team without having signed up
for competition at the first of the sea-
son. This means a forfeit for the team
on which they played. This should be
a lesson for those who are falling to
come out and sign up for the rest of
the intramural sports, if they have any
intention what-so-ever of competing.

There could not have been an easier
win for the Junior B's who knocked
off the Post Grade 29 to 13. Caldwell, who plays a smooth game of ball was high scorer for the Junior.

Varsity Hoopmen Exhibit Let-Down During Practice

From the appearance of the varsity's practice squad over the past two days it is a very likely occurrence that we will see the same old squad tomorrow night. Jerome Sabin's return has clearly improved the squad and there's every reason to believe that the same team will be in line-up tomorrow night.

Has Athletic Past Vivid Present

I saw him with a football on the field...It didn’t help him.

On Saturday night the fresh will take on a team of star high school players from Hayward in a basketball game in the local gym. According to Don Hudson, a better captain of the State strong track squad, these boys from Hayward are the best. Ironically, Don is working in a sport shop in Hayward and he’s been the boy’s basketball coach for the past two years. In fact, he insists that this team is one of the best in the county.”

One very good side for their five consecutive wins in this season has been on the court, where he has more than held his own against opponents. Defending a rapid passing attack and stanch inability to put up 3-pointers has enabled the team to work on a new plan.

The game will be a very interesting one, no doubt, and will certainly be a test of what we have been practicing over the past two weeks.

The Prodigal Son
By Agnes Walten
A gun was pointed at me. In my wild imagination I pictured here in that situation, and I always known enough to scream. But I didn't have to do that. The gun was pointed at me and I screamed, and the gun and the bullet hit me.

In the first place there was no bandit, and she was doing to meet me to a neighbor when my brother had deserted me. Still, it was true that we had advanced just two and a half minutes ago, and he fled. My sanity returned. I had seen him before, heard of him, and I knew his reputation was good.

In the second place the man wasn't there. He was behind the car driving the gate. I was in the car. The man who was sitting cold steel pistol, lay in the driver's seat, and, as I have said, was pointed right at me. He had been sitting on it.

The old sweet soul of the shelf to me
Brings again her voice when she said by the sea;
That her love for me ne'er away she'd toss
Flew away thru the spray to the night.

And he added fiercely, "That's me and I didn't have it. My family bonded. If anything should happen to me and I have seen it. I couldn't help seeing it. I decided to act as if I were accustomed to having pistols aimed at me."

But—just because you're an author or writer don't have an idea that you can be unannounced.

Well, this is the first column of the first paper that had appeared this quarter. We hope it won't be the last. Column or page. Vernon Konrad gave me a last quarter, and it seems to be a good one. People who have any ideas on the betterment of the page are welcome to turn them in to the editor.

It seems that there are two distinct divisions in this business of writing: writers and editors. Authors are those who have some very definite ideas on the "art" of writing, and their great desire is to some day publish a masterpiece. In the mean time they join literary societies where they criticize contemporary works. On the other hand, there are writers whose earnest desire is to write all. They're not a bit snobbish. One day they'll have a confession story idea, and the next they gave a Lady's Home Journal germ plot. Usually they bring in the checks. It seems there is a need in both to be signed in the world. But one must choose which type he prefers and stick to that idea.

Ask Emily Post
By Ethel Lee Runkin
"Dear Miss Post," I scribbled back post haste. "Suppose, my dear Miss Duncan, that this child had my body and your brains? What then?"

Writers are queer folks. They do the strangest things. Take for instance the original source from which I gleaned to write. Although a good screenman, he says "all of you" takes it come to writing; so he rigged up a clothes line bodily in his room, and plucked every germ of good decisions. Then he wrote down the information, he pretried it; and stick to that idea.

In the first place there w...
