**SPEAKING OF SPEECH**

Shots of Dent! What a resoundingly bad joke! As a matter of fact, Dent is the only one of the editors who seems to have a sense of humor. It is a pity that he has, for it would give him something to do besides reading and writing. He is a member of the speech team, and it would be nice to have him around more often, for he is a great help in any sort of a situation.

There is a great deal of talk about the speech team, but it seems to me that they are not doing very much. They meet once a week, and then they spend the rest of the time in practicing their speeches. It is a pity that they do not have more time to devoted to other things, for they could do a lot of good if they were allowed to do so.

I am sure that Dent is interested in the speech team, for he has been a member of it for several years. He is a good speaker, and he has a lot of ideas. I think that he would be a great help to the team, if they would only let him.
