Merger of Colleges Rejected By Group

From Chico we hear of the rejection by the students' representatives, North State College and the University of Chico of the proposal to merge the two institutions.

The representative of Chico and North State discussed the subject of a merger with Mr. Robert M. Garvey, president of the college. The group rejected the proposal, and President Okemen of Chico spoke a few words in the interest of both institutions.

The report, however, directed the group to the necessity of continuing the discussion of this subject so that the best advice to the students of both institutions can be given.

Black Continent Talks To State's Radio Operators

South Africa and San Jose State College held a two-way conversation via radio between 6:30 and 7:15 p.m. on March 16. Dave Michalski was at the key of WXYT, the State College Radio Station, when he heard the signals from ZSV, at Walvis Bay, South Africa.

Your signals are coming in here fairly well," said the English operator on the "Dark Continent," and that started the contact which lasted for 13 minutes. Dave was also told that this was the greatest distance at which the station station had been heard. Signals sent from the local station must have traveled across the Gulf of Mexico, part of South America, and the South Atlantic Ocean, according to calculations of some members of the Radio Club. The distance covered is approximately 14,000 miles, which is about as far as any station station can be heard, three times more than half the distance around the world.

Hampden sees it, and he br-

the high jump.

Salvato and Taylor doubt Bob Klein,
one of the California sprinters, an inter-

A SPLIT IN THE FACE

It seems to us as we glance through the College of Pacific weekly that they must be hard pressed for copy, if they have nothing better to write than the much "cured" and discussed basketball series.

We have tried to take a purely impartial attitude on the matter and have overlooked most of the insults thrown our way by the Pacific press. But try as we may, we shall never see just what business it is of theirs what we do in sports, so long as it pertains to ourselves and institutions other than Pacific.

In a front page column entitled, CAMPUS IN BRIEF, they say—"Noticed in the San Jose Times that they were under the impression all the time that the Fresno series would not count. Which makes the forcing of Fresno to play nothing but downright meanness, for even the selfish motive of a two game advantage is thus eliminated. Looks as if the Associated Students of the State College Times tried to take a purely impartial attitude on the matter, and discussed Fresno basketball series."

We sincerely hope that the powers of the Pacific press will be next to impossible to get a picture.

It will be next to impossible to get a picture.

There was no excuse for the slip. Mr. Osterneir knew that the photographer would be there ready to take the picture as soon as the concert was over. Yet because that individual was four minutes late in arriving, the orchestra was dismissed even before the audience had left the Hall, and not a good spot for their department in the La Torre.

The symphony is an integral part of the music department and it would be bad not to have the picture of that group in the year book, yet due to some unknown quirks on the part of the Associated Students, the most worthy leader, the orchestra was dismissed after Tuesday night's concert just four minutes before the photograph arrived.

When you stop to consider that the personnel of the organization was formally dressed, you will also see that it will be next to impossible to get a picture.
