Terms and Conditions

YOU CAN:

- Store this article in electronic form solely for your personal academic or research use (up to 120 days)
- "Mark it up" for personal academic or research use
- Print a copy of the article and use and store that printed copy indefinitely for authorized uses

YOU CANNOT:

- Remove copyright or trademark notices
- Otherwise change the article
- Store it in on an electronic server accessible to any other person (other than storage by institution library staff for up to 30 days to ensure delivery

I agree to these [terms and conditions](#)

Limiting Get It Now – March 2016

- Chancellor's Office subsidy eliminated
- Concerns about users getting items “just in case”
- Demand and article costs increased, which prompted the elimination of the unmediated Get It Now program

Costs Associated with Requesting Journal Articles

- CONTU – Rule of Five
 - Libraries can borrow up to five articles published within the last five years from a single journal title
 - Requesting and receiving six or more articles from a single journal title in a calendar year results in
 - a denied request
 - starting a subscription to the journal
 - paying of royalties per request in excess of the five
 - Articles older than five years (by date of publication) can be borrowed royalty-free

- The new workflow
 - Route all requests through RapidILL first

SJSU King Library GetText

Title: Uterine didelphys and vaginal birth after cesarean delivery.

Source: Obstetrics and gynecology [0029-7844] Altwerger, Gary yr:2015 vol:125 iss:1 pg:157 -159

◆ [May be available in the](#) SJSU Library Catalog

Note: Check if the item is available in the library for the specific year/issue you want.

[Request through](#) SJSU Interlibrary Services (ILLiad)

- The promise
 - Fast turn-around time ~14 hours
 - Set budget

Does RapidILL fulfill the promise

The Negatives

- Lending aspect
 - RapidILL is predicated on resource sharing
 - SJSU is required to lend commensurate with the borrowing numbers
- History of borrowing and implications to lending

Borrowing Data

Year (Fiscal Year)	Number of RapidILL/ILLiad Requests	Number of Get It Now Requests	Total Number of Requests for Non-SJSU articles
2012-2013	10,428	2,385	12,813
2013-2014	9,145	4,006	13,151
2014-2015	7,837	6,279	14,116

Rapid ILL workflow

- Mediated
 - RapidILL turnaround time is ~14 hours
 - But this is just a fraction of the total wait time

Example #1

Transaction Information	
Journal Title	Public Health Reports
Volume	130
Issue	5
Month	
Year	2015-09-01
Inclusive Pages	453-457
Article Author	SARAH, AMIN
Article Title	Impact of the National School Lunch Program on Fruit and Vegetable Selection in Northeastern Elementary Schoolchildren, 2012-2013.

Tracking Example #1 request

6/6/2016 1:46:40 PM		Odyssey Document Received	Odyssey
6/6/2016 1:46:41 PM		Delivered to Web (Delivered to my ILLiad account)	Odyssey

Does Rapid ILL fulfill the promise

The Positives

- Mediated
 - Less expensive
 - Not paying royalties on articles outside of CONTU
 - Less likely to have the “just in case” requests
 - No complaints, so far
- Personnel re-organizations
 - Potential for job growth
 - Automation for improved efficiency

Implications

- Collection Development decisions
 - Review titles for subscription possibilities
 - Consider “big deals” again - cancelations are becoming critical as time goes by
- Barriers in the requesting process
- Possible solution – implement a limited Get It Now
 - Limit to Faculty only, or limit to specific publishers

Thank you!
