The San Jose State chapter of BridgeUSA, also known as BridgeSJ, hosted a political speed-debating event, "Talk About Muslims!" on Thursday in the Student Union to educate students before they vote in the U.S. General Election today.

The event was hosted alongside Students Against Mass Incarceration, a student organization that advocates against mass incarceration, and Democrats at SJSU, a student club that promotes democratic values.

Sabrina Nabizada, BridgeSJ president and political science junior, promotes democratic values. "Voter turnout for the youth is super low, " Nabizada said. "The harm of that is you're going to have politicians in office who do not care about issues that you're affected by, which is why you should be voting."

She said she acknowledges that some students don't vote because it takes some time to research each proposition and who the candidates are.

"Voter turnout for the youth is super low," Nabizada said. "The harm of that is that you're going to have politicians in office who do not care about issues that you're affected by, which is why you should be voting."

She said she acknowledges that some students don't vote because it takes some time to research each proposition and who the candidates are.

"Voter turnout for the youth is super low," Nabizada said. "The harm of that is that you're going to have politicians in office who do not care about issues that you're affected by, which is why you should be voting."

When you go out to vote, you're electing officials who have your best interest in mind. That means they're going to be voting for policies that are in your favor," Nabizada said.

She said students should learn more about the propositions, especially the ones that are catered to education including Proposition 28.

Proposition 28 would require a minimum source of annual funding for grades K-12 in public and charter schools to fund arts education programs, according to Ballotpedia, a nonprofit and nonpartisan political encyclopedia for U.S. politics.

"That one, I think, should especially be paid more attention to by students because it does directly impact how much is given to art programs," Nabizada said. "Currently, that's not really much on there, especially because the funding for that is debated on state decisions or local decisions."

She said she acknowledges that some students don't vote because it takes some time to research each proposition and who the candidates are.

Proposition 26 & 27

Proposition 26 would allow in-person commercial sports betting at racecourses and on its own premises, education, according to the CalMatters Propositions Voting Guide webpage. “This is the one that has almost no opposition,” Jackson said. She said it would require that 10% of funds raised in public education would be designated for music and the arts in public schools, including grades K-12. “It’s very good to see that music and the arts are being recognized. It shows that the wording.

Protest Continued from page 1

“We need to uniform what the West has taught us about men and women’s rights,” Nojjan said. “No man does not oppress women.”

Kat Adamson, sociology student and Students Against Mass Incarceration member, said it’s important for students to be involved in their local government because they’re in charge of what affects their lives.

Adamson said comprehensive breakdowns of each proposition’s intention would take place in a campaign to keep their rights on their body. Proposition 1 supports amending the constitution to prohibit interfering with or denying reproductive freedom, which includes abortions or contraceptives, according to the CalMatters Propositions Voting Guide webpage. “They don’t see us as a people. They don’t really care what’s happening, just to be on good terms with them, but to keep them in the dust, ” Salemi said. “I am not happy that we have to protest about the current situation in their situation in their home country.”

Salami said. “Those people are struggling and they have no one and the world has seemed to forget about them.”

He said there are millions of people that are struggling and they need support, resources, and humanitarian aid. “We forget about them, we leave them all in the dust,” Salam said. “People aren’t aware of what is happening in Afghanistan and the U.S. are not focused on their own lives.”

Although members of the student association have been actively involved in advocating for the freedom of Afghanistan and its people, they’re not aware of the current situation in their situation in their country.

Sulaimani, Afghan Student Association outreach coordinator, said he feels empowered because of what people in Afghanistan are going through. “People in Afghanistan right now don’t have any means of escaping their reality,” Sulaimani said.

Jackson said that law which recently passed states as of 2035, California residents won’t be able to purchase new gasoline vehicles and from that point on, all new vehicles will be powered. In other words, Californians will finally transition to low-emission vehicles.

“Proposition 32 would try to address those two problems, that one is the change and the air quality by providing funding for people to buy an electric vehicle,” Jackson said. “Not pay for the whole thing, but like a voucher, like a discount coupon.”

She said those who advocate for that proposition and those who are in need make safe, while those who argue against the proposition says that this would cost millions of money, which could cause more harm to citizens to that thing.

She said those who advocate for that proposition are workers, union, who have been trying to preserve the workers force, while the other side is being occupied by businesses that control the clinics.

“Proposition 29 would make it mandatory for kidney dialysis clinics to supply one physician, nurse practitioner or physician assistant with an experience of six months or more. It requires online via Telehealth, according to the CalMatters Propositions Voting Guide webpage. “This is the one that is in the ballot that creates this financial threat for the companies and if it also forces the companies to spend more money to try to deter the proposition,” Jackson said.

Proposition 30 would require online and mobile sports betting to be backed by sports betting companies and it also forces the companies to pay 10% of the sports bets every month to the California. Proposition 28 would allow online and mobile sports betting to be backed by sports betting companies and it also forces the companies to pay 10% of the sports bets every month to the California.

Proposition 27 would allow online and mobile sports betting to be backed by sports betting companies and it also forces the companies to pay 10% of the sports bets every month to the California.

Proposition 27 would allow online and mobile sports betting to be backed by sports betting companies and it also forces the companies to pay 10% of the sports bets every month to the California.

**Open Mon - Saturday 11AM - 9PM**

**Sunday 10AM - 7PM**
It seems like every time elections roll around, the very fate of our democracy hangs within our hands. If we don't act, we might lose it.

But what happens, when our democracy is acting exactly how it's designed to? How it is intended to be?

Republicans and Democrats are using the loopholes and disadvantages of the U.S. government to both of their advantages. Democrats are begging voters to cast their ballots in support of their party or else we will continue our descent into fascism.

Republicans are using their power very easily to cling onto and discard into fascism.

Democrats and Republicans need each other to have income and power they both desire and crave.

Democrats will assure you they care and will a push button on your forehead before pushing you off a cliff.

Republicans aren't any better because they will simply push you off the cliff.

Many people will tell you our problems started when former President Donald Trump was elected in 2016, but that is just an indictment of the larger problem this country faces.

Endorsements and voting are not enough, to place this issue upon voters who don't truly have a voice.

Thinking back to the last two years, especially after the coronavirus pandemic and the time we were all in shelter-in-place mandates, the cracks in time we were all in shelter-in-place mandates, voting doesn't work and doesn't work for us, not against us.

For the first time, the median rent in the U.S. topped $2,000 a month in June and it's unlikely to stop there, according to the same report.

Meanwhile, $74 billion has been given to aid to Ukraine, in addition to the $400 million added on Friday, according to the U.S. Department of defense watchdog.

This also includes the U.S. having the largest defense budget in the world, with 10% of all federal spending going toward defense, according to the Peter G. Peterson foundation, a nonprofit fiscal research group.

Nearly one-in-three Americans experienced a weather disaster in 2021, according to a Sept. 4, 2021 report by The Washington Post.

Joe Biden is America’s oldest president, having been elected at 78 years old, according to an Oct. 25 NBC News article.

Endorsements and voting are an integral part of society, but what happens when voting doesn't work and doesn't change?

The Spartans started showcasing important offenses plays.

Before the first whistle, three SJSU senior players, midfielder Ryota Nakashima and Forward Finlay Wood and defender Eduardo Miranda, celebrated their last home game at SJSU walking on the field with their families.

Nakashima said with his goal he wanted to give back something to the SJSU senior players. “I came to this team last year and Fin and Eduardo were here since senior year,” Nakashima said. “They helped me a lot to get in to this team.”

SJSU is the lone MWC representative in the tournament as a freshman.

The opponent will be the winner of the New Mexico State and Utah State women’s soccer tournament.

The San Jose State women’s soccer team’s Mountain West Conference trophy could be seen on display Monday in the Gold Room during the NCAA selection show.

The Spartans will be the underdogs heading into their game on Friday and will be playing to play against one of the country’s best collegiate programs.

“We have nothing to lose and I hope everybody just goes out there and plays 100%, all effort.” Womann said.

The Bay Area clash between SJSU and Stanford is scheduled to take place in Palo Alto on Friday at 7 p.m.

Follow the Spartan Daily on Twitter @SpartanDaily

The win punches the Spartans a ticket to the National Collegiate Athletic Association (NCAA) Tournament. The Spartans had marked the third appearance in program history.

SJSU is the lone MWC representative in the NCAA Tournament and is the 14th seed in its bracket.

Monday’s selection show, which was held in the Gold Room at South Campus, underscored the Spartans’ upset matchup against Bay Area rival Stanford University, which is the third seed in the bracket.

Senior midfielder Finlay Wood celebrates the Spartans’ 1-0 win against Seattle University on senior night Saturday at the Spartan Soccer Complex.

Men’s water polo falls to No. 1 Cal

By Alexia Frederickson

The San Jose State’s men’s water polo team dropped their third straight game 17-4 to University of California, Berkeley at the Spartan Recreation and Aquatics Center pool on Sunday.

Cal water polo, who has been No.1 in the State, crushed the Spartans on their home turf.

The Spartans (10-14, 0-4 Golden Coast) shot a lowly .160 from the field, making only 4 of their 23 shots on goal with 5 of their goals coming on power plays.

The first quarter started off rough for SJSU. They allowed the Golden Bears to score six unanswered points and did not have an answer for Cal’s fast-paced attack.

The Spartans did not score until the six minute mark of the second quarter when junior Mark Kis scored on a power play. The Spartans ended their scoring drought though Cal was already up 7 points.

At halftime, SJSU were down 11-2 and the game looked bleak. Though the Spartans have a losing record, they have played the No 1 team in the nation twice, playing Stanford and Cal who hold the No 1 spot at different times this season.

On Friday, SJSU is scheduled to play the final home game of the season against the University of Pacific Tigers at the SRAC pool at 1 p.m. The Spartans will honor all of its seniors in a ceremony before the game.

Cal continued its dominance in the second half as they outscored SJSU 6-2 in the second half. The Golden Bears cruised to the final line, not allowing the Spartans to score in the fourth quarter. Even in the loss, head water polo coach Bruce Watson said he was proud of his teams performance.

“It was a good game, everyone did a great job,” Watson said.

After going undefeated at the Julian Fraser Invitational just two weeks ago, the Spartans have gone cold on the defensive end.

SJSU have given up 14.6 points to opponents during their losing streak and scored just over 7 points in their last three games.

The Spartans have a losing record, they have played one of the tougher schedules in the conference thus far.

SJSU has played 20 ranked opponents and has played the No 1 team in the nation twice, playing Stanford and Cal who hold the No 2 spot at different times this season.
