It is decidely rather a new de parture in the fields of voluble combat for a representation of the more reticent sex at a meeting of this kind. The young ladies, however, feel, that, in vogue with the trend of feminine advancement in public affairs, they have a right to express their political sentiments publicly or otherwise.

The representatives from this school have been trained by Mr. Eckert, debate teacher here, and should make an extremely creditable showing against our ancient rivals, College of the Pacific.

Political Rally for San Jose

There will be a political rally in the Morris Dailey auditorium on the evening of November 1.

The rally has been planned and carried out by Mr. Eckert of the Speech department, as a gesture toward arousing a more dominant interest in national affairs in this college.

Political rallies, as a rule, are flery affairs, involving vigorous exposition or more vigorous denunciation of platforms, characters, personal lives, and even the biscuits the candidate's wife makes. This process of demoralization usually instills in the minds of the audience a distinct aelization of at least who not to vote for. However, it rarely contributes any real information, and is hardly conspicuous for the amount of good will it inspires.

In view of this Mr. Eckert has endeavored to engage speakers who, although they do not take an active part in politics, are very much interested in the coming election because of social considerations. That is, they think first of their country, and secondly, of the candidate for the office.

All of the men are leaders in their particular field, and have shown in the past a clear-sighted and intuitive insight into the main issues of all problems with which they have been confronted.

Supporting the Republican platform and candidate is Mr. Arthur Dunne, a well-known San Erancisco attorney, who has divined the true character of America's problem today and will express (Continued on Page Three)
