DEGROOT SET FOR CONFERENCE BATTLE IN STADIUM

Support of Community Chest Is Asked

Goal Near As Campaign
For Community Chest In
College Winds Up Today

Student Chairmen Close Drive
For Fund Contributions
This Afternoon

Simon Ades Remaining Campus
Groups To Respond Before
Five O’clock

When all resistance organizations
at all individual colleges have
been met, the San Jose State college
will have met the assigned quota of
$35,000 for the Community Chest fund. It
is expected Thursday by Dr. Howard H. Spaulding, chair man. It is
reported however that most of the con-
servativeness will contribute their
quota sometime today.

Individual contributions were made in
envelopes numbered privately, while in
the faculty it pledged one per cent of
their income to the cause.

A spending must turn in their
contributions in Mrs. Stevenson imme-
diately.

Guys who have made one hundred
dollars or more so far are: Mrs. Delta Pi—Matha Vanekiwal.
Mrs. Omega Pi—Joseph Deblumen.
Simon Knights—Antonie Nethorb.
Spartan Seniors—Mr. Hans Hehn.
Junior Circle—Helen Ahura.
VWCA—Bill Jones.
Amanda—Blanche Miller.
Ben Gamma Chi—Constance Kneed.
Dela Pi—Geraldine—Matha Vanekiwal.
Kappa Omega—Mary Jane—Maryras S. Kenz.
Pi Kappa Pi—Helen McDaniel.
Phi Mu—Joyce Morgan.
Pi Mu Epsilon—Barbara Varley.
Del Nu Theta—Addie Swalsie.
Tau Mu—Evelyn Dunn.
WAA and OED.

Interclass Debates
Will Be Held Soon

Propositions for the Interclass de-
bate to be held November 23 at the
sidelines of basketball game are new.

“Resolved that San Jose State Teach-
er College should observe final exam-
even time classes,” is the question that the
interclass debate committee will discus.

The junior and senior debates will
be before the senior group and the
debaters and orators will talk in front of the freshman students.

While such an outline will meet the
plans of the winter quarter.

DEBATE WITH SANTA CLARA

REFLECTS ON LAMSON CASE

Since the assistance of District At-
orney Lindsey, Assistant Attorney
General and Professor Benson, of the
San Jose Police force, the Variety de-
bate squad is holding up its case for
eventual and inevitable evidence which it will
discover in the debate here November 13, in the Hall of the Uni-
versity with the Univer-
sity of the State.

During exactly one month before
the end of the season of biology,
A. L. Lamson, alleged murderer of his
wife, the Massachusetts College, the de-
bate has already started to show a lot of
address. The residence of the residents of San Jose State
have been most interested in keeping circum-
stances.

Y. W. C. A. to Hold a Dinner
At Roosevelt Hotel

Y. W. C. A. will hold a dinner
Saturday night in the main ro-

m of the Roosevelt Hotel at 7:40.

It is important that all mem-
bers be present Friday night.

VERSE CHOIR FOUND
"LIVE WIRE" GROUP OF POETRY READERS

This Verse Speaking Choir you've heard so much about—just want any of you to join. Well, you see, they're all members of the State Teacher's College, and most of them have reached the age where they're not likely to be as eager about doing anything as you are about joining. But there's still plenty to see, their work and of course about the various poems they read.

But don't get the idea that they're for the most part all poetry lovers. Take Edith Boash for instance, she's much more interested in tennis. She's been a good piano player and she really did help him out a little, but for the most part it's simply her interest in the poems that makes her want to join.

In fact, Bill Jones, who is extremely good at poetry, has seen a lot of service this year, is handicapped by a bad hip and will not be able to do much tomorrow. Henry Beery, however, with Bill Jones's contribution to the tackle list, has a broken nose and also will be out playing.

GUARDS
These two reliable guards, Karl Sandhills and Bert Collins, will be the pick of points in tomorrow's game. It will be up to the Spaniard guards to stop the powerful Aggie line singles and to give the passers a harder time. Both Sandhills and Collins have played defensive ball all year, but Collins is an unknown quantity for Saturday. But he suffered a bunion in his right foot and has not been able to make any progress toward starting.

Mr. Howard White, Principal of Los Altos Grammar School, was an author of many books for boys and girls, closed the program with a talk on "His Ten Year Plan" in which he detailed some of his personal experiences that have given him unusual material for his stories.

There may be good times there are pleasant marriages. If we conquer our passions it is possible to make a success of marriage. There may be good marriages and there are endless marriage cases. It is a fact that there are good marriages but there are also endless marriage cases.

ENGLISH BLACKSHIRTS PRESENT
IN FIGHTING MOOD AT OXFORD

Sir Oswald Mosley, England's Fascist leader, brought his boys from out of the cities to present a meeting at which he spoke. It is said that Sir Oswald anticipated an outbreak of disorder in his audience because of a reference in his address to the resolution unilaterally passed by the Oxford union.

He was not disappointed. With the first interception, black shirts pretty well hurried the bankers to the head of a stone stampede and left their victims to the mercy of a press corps— a populace completely familiarized with two parties—usually one single organ—and several other features of interest to students of Fascism.

JILL BONES
DEFIES TIME REPORTERS

It seems that a reflector was the signal for this Jill Bones. Bill is president of the V.M.C.A. and editor of the student newspaper. He recently defied the press to misprint his name.

The press went in search of the world's worst spelling. The press found it, but in the most unlikely place—State. His worst trouble is with personal names. Please notice Bill Bones. The letter "i" helps him to get a little out of his worst part, but for the most part the "n" is still the trouble child.

It is not the wish of the press to be thus defied by the editor of the student newspaper. BILLI ONES can
AGGIES DOPED TO GIVE SPARTANS TOUGH BATTLE IN CONFERENCE GAME TOMORROW

TWO AGGIE MAINSTAYS

Two members of the California football team told us to play an important part in the defense Coach "Chip" Donahoo has in mind. Tom Roney has connected to stop San Jose's tricky offense. Right end Carl Robinson, veteran former fullback, will try to cut off the Spartans' wing-man on the squad. Both are key men.

COGS IN DEFENSE

...t. rtion of their predecessor, the punting department "the body," and Darroch has been filled by Paul J. Bonder, a former star of Santa Cruz High School in their pre-day.

With the most dangerous man off the field, the Aggies are looking for the next man to come up with a halfback, in the absence of San Jose's No. 6. Darroch's replacement. Debbie Bonder covered 40 with a deep on Santa Barbara and should be in this week's practice with a good halfback.

Coach Walker Juggles Soccer Line-up As Spartan Shin-kickers Meet San Mateo J. C.

DONAHOO IS DOUBTFUL

Donahoo is doubtful starter as San Jose J. C. is the San Mateo J. C. football program.

Charles Walker is still experimenting with his team in preparation for their fourth conference game with San Jose Junior College. The latest combination places Babbie back at right fullback and Wood Moves from left to right halfback spot. Climo and Streater move on the halfback line with Gould, Meslier, Jacobs, Dugan and Robinson in the forward wall.

DORADO OUT

The third football maneuver to be made by San José has been announced. Carl Robinson, another top, will fill in for the regular wing back. He will be a big loss, but there will be no ill effect on the team. The furnaces have no quarterback, but a well balanced ball team. Their forward line is good, and their defense is above the average, but even at that, the States are capable of taking advantage of the champagne moment.

The state champion will probably win the game, although this is his last year. For he has been alternating with Babbie at the right end of the line, and Babbie is a very good football player who is not going to remain on the team. His writing is not clear, but it is obvious he is a good player of the line.

The next game, next week at 2:30, will be played on California State's campus at San Francisco. The teams are expected to play a game of 100 minutes, with 2 15-minute halves, and two中间休息.

Frosh Game With Armstrong J. C. Cancelled by Berkeley Institution

MILITARY PAGEANT TO FEATURE GAME

A colorful military display, starting at 1:45 will be a feature of tomorrow's football program. Led by San José State's own band, an array featuring the entire senior football team of the Aggies and some 10 drum corps and bands including a "Milite" band will parade across the floor of Spartan Stadium in review.

Teachers, Where Lies Your Fate?

Reading the article "Teaching Committees Meet" in Tuesday's Times we are dealt a blow—nothing else. Our status as a teachers college dealing in secondary credentials particularly is under question.

Are we to be thrown into oblivion when our fondest dreams are coming true? Will we be forced to sacrifice four years of tedious endeavor?

Do we want to be a Teachers College, educating teachers, the finest teachers possible, who are ably equipped to teach in the field in which they have a credential or what?

We cannot afford to lose, on the committee of certification and teachers training, fighting on the grounds that the teachers college graduate is like an educated versatile in the expression subjects such as music, art, speech arts and physical education and a strong leader in extra-curricular affairs, taking along the right line. He has future generations in mind—ideal teachers necessary for an ideal generation.

What institution can train more efficiently these ideals in a teachers college than college.

Do we want our children in grammar school taught by someone with a high school credential? No, we want some one who knows his grammar school and grammar school child, not someone who knows his Latin and Tunes at being a psychologist in the lower grades.

It is strange to note that a person with a general elementary credential can not teach above his grade, but a person with a high school credential can teach in the lower grades. But such would be the case if the granting of secondary credentials were limited to universities.

With the modern world demanding specialization in all fields, why should we not demand teachers who specialize in teaching children?

The teachers' college at the present time satisfies this demand of the modern world. Therefore we contend that teacher training should be left to institutions founded for that purpose as we are able to take the raw material and put out a finished product.
