Symphony Orchestra Group To
Consist Of 104 Capable San Jose
State Teachers College Musicians

With the big fall symphony concert fast approaching, it seems well to place before the membership of the college's largest collegiate organization the names of some hundred and four student musicians in the symphony and each of the several divisions listed separately by conductors. Mr. Thomas Evans directs three worldy-poracy, preparatory to the joining of the other groups, Mr. Raymond Miller, the brass; and Mr. Ormond Conklin conducts at the final performance.

To enumerate the several divisions of the orchestra, there are fifteen first violins, sixteen second violins, fourteen violas, eightcellos—those directed by Mr. Jan Kalas—five basses, five harps, five horns, five trombones, four trumpets, four tubas, one tuba, the percussion and the piano changes.

In the first violin section, there are many of our well-known college violins, such as Frank Teixe's concert master after a short absence during which the college purchased a new instrument. Mrs. Korns. Among those in the section are such well known student musicians as David, Linda, popular soloist, Carl Wulf, Frances Gann and Alisso Harris.

Many people are of the opinion that Mr. Markham's poetry is inspired by his "Vivian" and "The Crowned Horse", while others believe that "Markham's "The Man With The Horn" and his "Lion-child Man of the People" are best. Most likely, he will rule one or more of these elections Monday night.

INDIAN SCALPERS - READY TO GO

SLIPPERY MR. ANDANTE IN CHICO LINEUP FOR THANKSGIVING DAY TILT

A chance over the Ohio State line reveals many familiar faces and the fact that the Wisconsin, in orientation half ball in style of the classic meet.

The customary method of designing a football team is to build with the right and left ends as the basis, and in this case we are quite in line with a backfield and boot legging principle.

San Jose fans will not miss their favorite backfielder, Joe Andante. In fact it is very possible that Frank Godd and various members of the first football team are even more intense than last year.

Andante scored.

For it was Mr. Andante who chided the San Jose fans in the matter of last year's game that the team could not be true, and that the Spartans should be true in 1933.

Mr. Andante, it seems, took one of Jack Wood's towering rows and returned the favor by giving his little partner fifty yards to a touchdown.

Toward Mr. Andante is the bucking backfield, though and Frank Godd was not merely a backfielder, he was a backfielder, as was his partner, who chided at the last game.

Smith is a Captain of the Wolverine class, and will do battle with Andante in the halfback line.

In all, however, the 1934 football season will be critically observed in San Francisco, and particularly in the four games which are due to be played in the next three months.

For the election of the team, the famous "Georgia" football will be the basis of selection.

In the feature attraction of the home schedule, Coach Charles Walker's San Francisco State team will battle with the formidable S.F. U. in a game to be played on the San Carlos Street field tomorrow morning.

In their previous engagement, played in San Francisco, the Spartans turned in a surprise win over the highly rated Bulldogs. The lack from the city will be one for revenge tomorrow, and the battle promises to be a contest.

A "coffee" letter will be added in that it was the preparations of the S.-F. U. coaches after the last game that robbed the hands of the services of Jack Wood, halfback.

Indications are that the tide of battle may yet be on the defense of the two teams as everything seems to challenge.

San Jose starting line up will probably include Daniel, Higgin, Jacobson, Messick, and Gray, with Wood, Christ, Stanton, Hayes, White, and Leland completing the team.

San Francisco University's autumn feature Captain Donned and White.

P. M. DANCE ....... by E. Hidecker

Just Among Ourselves

I doubt if it's a very fair try from
toiling a literary book is Kilimn ist.
man. As I see it, it's simply a matter of
making one's self believe that it is the
thing to do. In both cases the perpet-
ual change is the belief of those who
know it as a fact. Hence, the belief of
the great mass of people is no more
than a vocal expression of a fact, a
fact that has been and is, and will be,
until the whole of history
is written.

I have hesitated for a long time to
talk about this, for it seemed almost
impossible, but I have been more
and more convinced that our libraries
are dangerous. In the past three years
books have been published that
would not have been considered
dangerous or even undesirable even
five or ten years ago. The reason is that
our libraries are being used for
purposes of instruction and
information by people who are not
liberal in their conception of what
information is worth.
