This Presentation is brought to you for free and open access by the Library at SJSU ScholarWorks. It has been accepted for inclusion in Faculty and Staff Publications by an authorized administrator of SJSU ScholarWorks. For more information, please contact scholarworks@sjsu.edu.

Embracing Expanded Librarian Roles in Scholarly Communications

Ngoc-Yen Tran, Research Impact Librarian, San José State University

Emily K. Chan, Interim Associate Dean for Research and Scholarship, San José State University

Case study on faculty research output

Project

Identify and collocate College of Science (CoS) faculty publications over the last five year for the Associate Dean of CoS

Methodology

- Design and apply search strings in freely available and existing library databases to identify and organize faculty citations
- Exported items to RefWorks for deduplication and disambiguation

Discussion

- Presence of false positives
- Author name disambiguation issues
- Duplication of records & coverage across databases
- Inconsistency of metadata quality
- Formatting citation results based on stakeholder needs

Conclusion

- Could be a low-cost option to start providing this service
- Consider institution and scaling possibilities
