Natasha Allen and Suzanna Conrad. "Check Your Expectations: Testing Self Check in a Consortium Environment" *Ex Libris Users of North America (ELUNA) 2017 Meeting (2017)*.

This Presentation is brought to you for free and open access by the Library at SJSU ScholarWorks. It has been accepted for inclusion in Faculty and Staff Publications by an authorized administrator of SJSU ScholarWorks. For more information, please contact [scholarworks@sjsu.edu](mailto:scholarworks@sjsu.edu).

# Check your expectations

## Testing self-check in a consortium environment

Natasha Allen, San Jose State University @natatthelibrary

Suzanna Conrad, California State University, Sacramento @tbytelibrarian

# Outcomes

- Share experiences from consortium testing of self-check machines
- Provide ideas on how to create formalized testing procedures
- Share communication challenges and technical issues that required troubleshooting

# Background

## Unified Library Management System

[ulms.calstate.edu](http://ulms.calstate.edu)

# Background

- Formation of CSU working groups in planning phase
- Task forces were formed in 2016 to address smaller topics / distribute work amongst more staff across institutions
- Self-Check / SIP2 / Stunnel Task Force formed to address issues with self-check at affected campuses

# Objectives

- Clarify how campuses are using self-check
- Provide documentation on integrating self-check at affected campuses
- Test if approaches are vendor agnostic
- Provide testing protocols for campuses
- Provide consultation as needed with individual campuses setting up self-check

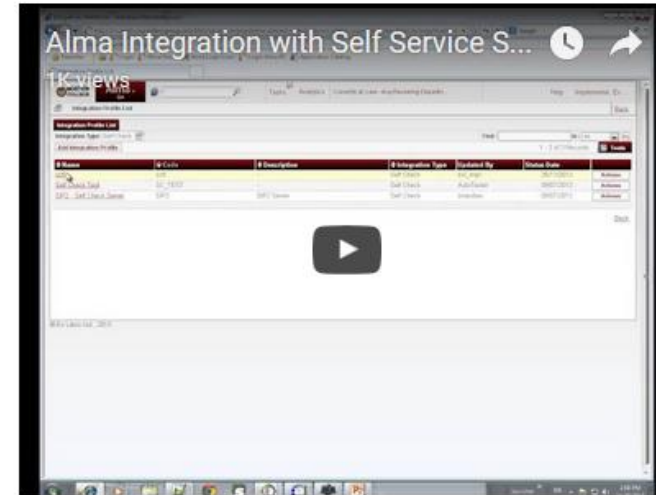

# Task Force to dos

- Define project goals/scope/objective
- Define deliverables
- Develop survey
- Test configuration of various self-check systems
- Finalize testing procedures and problem reporting procedures
- Monthly follow-ups with campuses to encourage testing

## Project Links

<https://developers.exlibrisgroup.com/alma/integrations/selfcheck/stunnel>

Self-check data from the Implementation Survey

Draft questions for self-check survey (5/10 meeting)

Notes from SJSU on setting up the self-check machine (September 2016)

Configuration recommendations from Alma listserv (October 2016)

SIP2 integration issues with holds from Sacramento (December 2016)

# The Data

- 11 campuses were using self-check machines
- Various configurations for self-check features:
  - Check-out
  - Renewal
  - Fine payment
  - Check-in with AMH
  - Account information viewing
  - PIN/Password authentication

Campuses with self-check:

Campus	Vendor	#Circs	%Circs
Channel Islands	TechLogic	30,000	30%
Fresno	3M		17%
Fullerton	Libramation		10%
Long Beach	3M		9%
Los Angeles	3M		5%
Monterey Bay	TechLogic		17.8%
Pomona	3M/Lyngsoe	13,035	43%
San Diego	3M		11.6%
San Francisco	3M		5%
San Jose	3M	41847	59%
San Luis Obispo	3M		2%

# What We Learned

- Differing Priorities
- Communication Challenges
- Troubleshooting Issues

# Differing Priorities

- Each library is different
- There are problems even if the machines are the same
- Bottom line: sometimes we can all be special snowflakes

# Communication challenges

<https://www.flickr.com/photos/petereed/138369750>

Everyone has  
different priorities

# Communication challenges

Not everyone has  
the same level of  
IT support

<https://www.flickr.com/photos/22750018@N05/4434362439/>

# Communication challenges

Staff and faculty  
turnover &  
retirements

# Troubleshooting Self-Check

# Network Problems

- Static vs Dynamic IP
- Port Number Problems
- Client.pem file not in the correct spot
- ERR\_SIPBL\_ILS\_CAPABILITY

# Hardware/Software Problems

- Stunnel as a Windows service
- PIN issues
- Ithaca280 Printer reinstall
- Bonus: Unhelpful Technicians! Yay!

# PINs

Customer Alert Timeout (seconds) 15

**Customer ID**

Allow Manual Customer ID  On

Customer ID Keyboard On Screen Alphanumeric

**Customer PIN**

Require Customer PIN None

Customer PIN Keyboard On Screen Alphanumeric

Customer PIN Maximum Attempts 3

Customer PIN Maximum Length 8

1. Workflow
2. Customer ID processing
3. Uncheck customer PIN required for check out and, if you allow manual entry of an ID, Customer PIN required for Manual Entry.

# PINs

1. General Configuration
2. External Systems
3. Integration Profiles
4. Selfcheck profile
5. Actions
6. Click NO on authentication required and then click save.

The screenshot shows the 'Integration Profile' configuration page for an external system named 'SJSU Self Check'. The page is divided into three tabs: 'General Information', 'Actions', and 'Contact Info'. The 'Actions' tab is currently selected. Under the 'Actions' tab, there is a sub-section for 'General Information' with the following settings:

- SC Identifier: sc01
- Error Correction:  Yes  No
- Alert:  Yes  No
- Item Transfer:  Yes  No
- SC Language: English (dropdown menu)
- Retries Allowed: 2
- Timeout Period: 5
- Checkin:  Yes  No
- Checkout:  Yes  No
- Renew Policy:  Yes  No
- Fee Payments:  Yes  No
- Return Message:  Yes  No
- Extension Type: (dropdown menu)
- Item Identifier: Barcode (dropdown menu)
- Authentication Required:  Yes  No

At the bottom of the 'General Information' section, there is a button labeled 'Download Certificate'.

# Hardware/Software Problems

- Stunnel as a Windows service
- PIN issues
- Ithaca280 Printer reinstall
- Bonus: Unhelpful Technicians! Yay!

# SIP2 communication issues (Sacramento)

- Cybrarian PC management
- NCIP add-on used in Illiad
- Stub request attached to account
- Out of bounds error
