Giants fans celebrate San Francisco’s sweep of the Detroit Tigers yesterday at Fourth Street Pizza Co. The Giants won 4-3 in the 10th inning and earned their second World Series title since 2010.

DETROIT — No doubt Marco Scutaro had waited a long time for the at-bat. Days before, the 36-year-old infielder infelder had caught the final out to send himself and the Giants, his sixth major league team, into the World Series.

Sunday night, he came up with a runner on second and two outs in the 10th inning of a tied game, and delivered a signature line drive up the middle that will forever have its place in Giants lore.

Scutaro’s single off Detroit Tigers closer Phil Coke became the go-ahead hit in Game 4 of the World Series as Ryan Theriot did his thing in the bottom of the 10th, getting Tri-ple Crown winner Miguel Cabrera for the final out.

For the second time in three years, the San Francisco Giants are the kings of baseball. For the first time in franchise history since 1914, they did it in a sweep, finishing the Ti-gers in four games.

Home Town, a two-strike baseball past a creamers Cabrera to end it. Catcher Buster Posey exploded out of his crouch and sprinted for first, who pumped his arms and screamed. At first base, Brandon Belt threw his glove into the air. Nice second, Scutaro sank to his knees and pointed at the sky before jumping into the arms of center fielder Angel Pagan, who had lain both arms to the heavens as the game ended. They rested near the pitcher’s mound into a winding man, Hunter Pence katies, the top button of his jersey hanging open, bouncing into whomsoever he could find.

For manager Bruce Bochy and 11 members of the Giants’ roster, it is their first championship, the reward for journeymen Ryan Vogelsong and Scutaro, it is their first in two years with two teams. For journeyman Ryan Vogelung and Scutaro, it is their first championship, the reward for Theriot, a member of last year’s St. Louis Cardinals, it is their second in two seasons.

For manager Bruce Bochy and 11 members of the Giants’ roster, it is their first championship, the reward for Theriot, a member of last year’s St. Louis Cardinals, it is their second in two seasons.

Theriot started the 10th with a bloop single off Coke and moved to second on a sacrifice bunt by Brandon Crawford. After Pagan struck out, Scutaro came up with the biggest hit of his career, bigger than any of his record-tying 14 that helped the resilient Giants overcome three-1 deficit in the National League Championship Series.

The Giants fell behind 3-1 to the hot Cardinals in the championship series, and then rolled off seven wins in a row. Begin-ning in Game 5 of the NCLS, they won 16 innings without trailing, four innings shy of the longest such streak in history, a streak that ended in the third inning Sunday night.

New legislation will help minimum wage workers make ends meet

By Kimberly Diaz

Measure D attempts to increase the mini-mum wage from $8.00 to $10.10 per hour, which is a 25 percent increase to the govern-ment rate from $8 to $10 in San Jose, currently, the minimum wage in San Jose is $7.25 per hour.

Another argument in favor states the in-crease will encourage more spending in small neighborhood businesses, and raise around $70 million for local goods and services. It will encourage more spending in small-neighborhood businesses and will raise around $70 million for local goods and services.

Opposing views on Measure D

By John Linford

Contributing writer

Measure D has received much support from minimum wage workers and unions.

However, it is opposed by businesses across San Jose.

According to Sanjosejobs.com, Measure D "would add a new chapter to the San Jose Municipal Code (the 'Code') to require em-ployers to pay their employees a minimum wage of $10.10 per hour for work per-formed within the City of San Jose." Cur-rently, the minimum wage in San Jose is $8.00 per hour, and the Federal minimum wage is $7.25 per hour.

Measure D seeks to increase the mini-mum wage in San Jose by $2.10 per hour, and the Federal minimum wage to $10.10 per hour.

Measure D seeks to increase the mini-mum wage in San Jose by $2.10 per hour, and the Federal minimum wage to $10.10 per hour.

Measure D would increase the mini-mum wage for the city rate and by almost 40 percent from the Federal rate. Many people feel that this will help those who earn minimum wages.

In reality, Measure D does not help minimum wage workers; rather, it makes it harder for businesses, elimimates jobs, and makes it more difficult for workers.

Businesses do not have much room for change in costs because they do not have many opportunities to increase their num-
ber of customers.

If Measure D passes, businesses will be hit hard. This is because the businesses will not receive any new customers from an in-crease in the minimum wages. Rather, they will receive close to the same amount of revenue as before the wage increase. How-ever, the businesses now have more costs to cover.

If Measure D passes, businesses that rely on the minimum wage will have two choices: lay-off employees or increase store prices.

Sanjosejobs.com reports, "80 per-
cent of employer and 40 percent of those who hire minimum wage workers report they will lay-off employees."
The businesses that lay off workers and cut costs because of Measure D will most likely be stopped from doing so. If Measure D passes, the remaining employees will now have to work more hours per week to make up for the decrease in pay. If this happens, the remaining employees will now have to work more hours per week, Measure D would cut employee hours if minimum wage workers will keep their jobs, many may need to try to find new work simply because their employers will not be able to pay them. This happens, many more people will make it at all.

If Measure D passes, the number of unemployed in San Jose will rise quickly. Raising the wages j.com claims, “Raising San Jose’s minimum wage to $10 and adjusting it for inflation means the recovery will be more broadly shared and more sustainable.” However, the recovery will most likely be stopped dead because of the minimum wage increase. Instead of providing more money for all minimum wage workers, only some workers will receive the benefits of Measure D, while others will go away with nothing at all. The businesses that still workers will face a new dilemma. The workers will now be expected to do the exact same amount of work as before; however, there will now be fewer of them. For instance, if a small business previously had eight employees per week, they would now only be able to afford to pay six of them to work 40 hours per week. This means that the work of the remaining six employees will be split between the remaining six employees. If this happens, the remaining employees will now have to work even harder. Some businesses, though, may do their best to keep the same number of employees. If this were to occur, the employees of these stores would now work less per week.

According to Sierrajobs.com, “52 percent of San Jose employers and 47 percent of those who employ minimum wage expert they will have to cut employee hours if minimum wage is raised so much, as quickly.” Maintaining the same example of a small business with eight employees, what each week 40 hours per week. Measured D would cut the hours of each employee to 30 hours per week. If this happens, the employees will make the exact same amount of money as before; this will not make life easier for them.

Some people will have to make cuts. Businesses in San Francisco have already shown clearly how lowering the “five dollar footlong” deal. In fact, the Franchisee shops, according to 55°F, 40°F.

In fact, City Hall is already considering a bill to raise the minimum wage for every American — and without all the flaws of Measure D. Moreover, Sanjoseca.gov states, “Congress is already considering a bill to raise the minimum wage for every American — and without all the flaws of Measure D. Stemming D on Sanjoseca.gov, “The majority of these cuts are likely to be made by small retailers, those with fewer than $800,000 in annual revenue because customers will have less money at their disposal.”

With many students working full-time to get through school and support themselves, this measure will not only lower their working wages, but it will lower the cost of other things for them, which will make life easier for them. They may become as successful as they want to be. If Measure D passes, all residents of San Jose will feel it; it will not just be minimum wage workers.

Moreover, Sanjoseca.gov states, “The businesses that lay off workers and cut costs because of Measure D will most likely be stopped from doing so. If Measure D passes, the remaining employees will now have to work more hours per week to make up for the decrease in pay. If this happens, the remaining employees will now have to work even harder. Some businesses, though, may do their best to keep the same number of employees. If this were to occur, the employees of these stores would now work less per week. Losing games to the lockout of fan and players alike, what makes this lockout worse is the fact that many fans who are being hurt by these prostigators are the ones who are welcoming the lockout. As the lockout reach its 44th day of exis- tence, workers at stadiums around the country and in Canada find themselves out of work and sports bars around these areas are also suffering. While players and own- ers spout the specifics of who paid how many millions of dollars here or there, people of lesser fortune are struggling to make ends meet because of this lockout. Small businesses such as sports bars and restaur- ants, that are college-aged workers and husbandmen at these places only hourly onic from game day to game day to pay the bills and with the Alouettes being the only team left they will struggle because of this. Players and owners will need to come together soon in order to save these fleeing businesses and if not to help the little guys out here, at least end the lockout for the sake of hockey. But likely this lockout will go on for some time as Minister Gary Burrill continues his hockey’s momentum again in mainstream sports as they did the last lockout, so

Donald Fagen rises to new heights with ‘Sunken Condos’

By Dennis Biles @DennisBiles

Grade A

Donald Fagen, co-founder of legendary rock group Steely Dan, may be getting up there in years but his skill musical as he was and gritty, yet often sacrificial lyricism doesn’t sound dated at all on his latest solo effort, ‘Sunken Condos.’

By employing his usual method of utilizing a wide array of instruments coupled with clever, unabashed analogies, and fans are overjoyed in his usual brand of laid-back funk and jazz, Fagen has managed to embrace the present, as well as the future, while still staying true to the signature sound of funk and jazz, Fagen has managed to embrace the present, as well as the future, while still staying true to his jazz and funk roots.

On the contrary, the fact that he’s still right in step with the present, as well as the future, while still staying true to his jazz and funk roots.

Pumpkin Spice Latte

Start to finish: 5 minutes

Servings: 1

Ingredients:
- 1 cup pumpkin puree
- 1 cup milk
- 1 teaspoon cinnamon or to taste
- 1 teaspoon nutmeg or to taste
- 1 tablespoon sweetener (sugar, honey, agave) or to taste
- 1 cup of coffee

In a small bowl, whisk by hand the pumpkin puree, milk, cinnamon, sugar, vanilla and sweetener or mix it in a blender. In a mug, pour a cup and half of the pumpkin milk into the cup. The other half is for a re-fill or another container. Top with a dollop of whipped cream and sprinkle of cinnamon and nutmeg and enjoy!

Optional: Warm the pumpkin milk on the stovetop for about a minute. Use a milk frother to create foam.

Pumpkin and Tofu Curry

Start to finish: 40 minutes

Servings: 4

Ingredients:
- 1 block (12 ounces) firm tofu, diced
- 1 cup sliced carrots
- 1 cup sliced zucchini
- 1 cup diced tomatoes
- 1 cup sliced mushrooms
- 1 cup red bell pepper, diced
- 1 cup red onion, diced
- 1 cup pumpkin puree
- 1 teaspoon cinnamon or to taste
- ½ teaspoon nutmeg or to taste
- 1 tablespoon sesame oil
- Orange-colored sugar for dusting

Russell J. Smalling / Special to the Daily

Although pumpkins are used for decorations and jack-o-lanterns for Halloween, the versatile fruit takes center stage in these recipes. Warm spices of cinnamon and nutmeg complement the pumpkin in rich, chocolate truffles and balance a homemade twist on a seasonal coffee shop favorite, the pumpkin spice latte. A pairing with coconut milk, potatoes and traditional Thai curry flavors such as lemongrass and ginger transforms the mild flavor of pumpkin into a savory dish.
