By Nick Strauss

Campus administration released a fact-finding report Monday afternoon detailing the sequence of events which led to the arrest of four SJU students for battery and hate crimes last Fall.

The report concluded that although the administration was slow to respond, no specific administrative policies were violated and the administration is not at fault.

The incident, a series of actions perpetuated by four caucasian suite-mates against a fifth African American student suite-mate, included harassment and intimidation by four caucasian suite-mates against a fifth African American student suite-mate, included harassing and intimidating four caucasian suite-mates against a fifth African American student suite-mate, included harassing and intimidating four caucasian suite-mates against a fifth African American student suite-mate, included harassing and intimidating four caucasian suite-mates against a fifth African American student suite-mate.

The event then happened, who was responsible and whether it was an hate crime.

The report concluded that although the administration was slow to respond, no specific administrative policies were violated and the administration is not at fault.

The Spartans are back.

The team might be without its star in 2014. Spartans had a 43-17 record last season. But much has changed from last season. The Spartans have lost their starting pitcher, All-WAC Pitcher of the Year, the arguably the best team to ever play for the school. They were our rivals, our star. This year we don't have any stars. It's a team effort. Any one can step up. We're not a team of stars, we're a team effort. Any one can step up and fill their shoes. They were our studs, our stars. This year's team has just returned to the MWC and improve on their first round exit from the NCAA tournament when they fell 5-2 to San Diego State.

Coaching the team, which was only the third NCAA qualifier in the school's history, were seniors Markesha Collins and Amanda Pridmore. Both were All-WAC first team selections last season, and each lent their talents to the most talented teams I've ever had. A little young, but that's okay. This year's squad has just two seniors and six juniors on a roster of 24.

Despite the youth, big-time players such as WAC selections Michelle Cox and Destiny Caldwell from last year's record setting team returns. Cox, a 5-foot-6-inch, lefty outfielder from Sydney, Australia, recorded a batting average (.363) and hits (66) percentage (.427) and walks (30) and RBIs on her way to being a first-team All-WAC player last year.

Her senior teammate Caldwell, a 5-foot-1-inch infielder from Chico, Calif., hit .427 with 13 RBIs on her way to becoming an All-WAC second-team selection in 2013. Both Cox and Caldwell know the impact of the loss of Pridmore, Collins and the three other seniors will have on this season.

The stars might be gone, but Head Coach Pete Turner and the SJSU softball team are not deterred from their ultimate goal to repeat as conference champions and make it to the NCAA tournament again.

"At any given time and any given day anyone can be successful," Turner said. "With that being said, we're going to depend on the team as a whole, not just one pitcher."

On the staff is Allison Lang, Madison Fish and true freshman Kathering Kinford and Collette Rigg.

"I could care less about what our record is, as long as we've succeeded there," Turner said.

"While we don't have any stars, it's a team effort. Any one can step up and fill their shoes. They were our studs, our stars. This year we don't have any stars. It's a team effort. Any one can step up. We're not a team of stars, we're a team effort," Turner said.

"The were leaders," Cox said. "We're successful," Turner said. "With that being said, we're going to depend on the team as a whole, not just one pitcher."

"They were leaders," Cox said. "We're successful," Turner said. "With that being said, we're going to depend on the team as a whole, not just one pitcher."

The Spartans begin their season Thursday in Tempe, Ariz. at 1:30 p.m. against Creighton in their first game of the Kajikawa Classic. The Spartans' first MWC contest is scheduled for March 20 at 3 p.m. where they'll host the UNLV Rebels.

"We want to see this team in action," Schultz said. "We want to make it to the NCAA tournament when they fall 5-2 to San Diego State.

"At the end of the day everything is possible. We just want to win and keep trying," Turner said.

The Spartans' first MWC contest is scheduled for March 20 at 3 p.m. where they'll host the UNLV Rebels.

"We just want to see this team in action," Schultz said. "We want to make it to the NCAA tournament when they fall 5-2 to San Diego State.

Terrell Lloyd | San Jose State Athletics

San Jose State junior Michelle Cox and the rest of the softball team are seeking to win their second straight conference title in 2014. Spartans had a 43-17 record last season.

"I could care less about what our record is, as long as we've succeeded there," Turner said.

"While we don't have any stars, it's a team effort. Any one can step up and fill their shoes. They were our studs, our stars. This year we don't have any stars. It's a team effort. Any one can step up. We're not a team of stars, we're a team effort," Turner said.

Cirque du Soleil’s ‘Amaluna’ is a feast for the eyes and ears

By Austin Belizzle

The appeal of Cirque Du Soleil lies in its ability to whisk its audience into a world filled with whimsical costumes, awe-inspiring acrobatic feats and imaginative narratives. In “Amaluna,” the latest Cirque Du Soleil show to occupy the Grand Chapiteau on Taylor Street in downtown San Jose, effortlessly takes viewers’ breaths away with entrancing acts and spectacular costume design. But while the show dazzles in terms of aesthetics and ambiance, the narrative strays and fails to fully immerse the audience in the performance’s island world.

The show is set on a mysterious island governed by goddesses and rooted in the different phases of the moon. In terms of performances, “Amaluna” mostly succeeds, save for the inclusion of hard-to-understand clowns and acts that feel rather stale in comparison to the rest of the show. The stage, a bare, circular platform, is flanked by sweeping branches of bamboo and brought to life through the use of colorful spotlights and the feline “Peacock Dance” and 1,000 live performances.

Director Diane Paulus and designer Mardi Carnou capture the feel of the island setting with a blend of vibrant colors, traditional Mediterranean attire and flowing garments. The show, unlike most Cirque tours, is female-dominated and the costumes provide the lead actresses and performers the opportunity to catch the eye as they deftly scale walls, deftly spin off the entire directive of the story by engul-

GRAND OPENING

Cookies rule everything around downtown San Jose

By Melody Gonzales
@mikedude

Bay Area residents crowded Post and First streets in downtown San Jose last Saturday for the grand opening of a new ice cream shop, Cookies Rule Everything Around Me, optimized to form a domino effect.

“CREAM is very sweet about being in San Jose,” said Jenny Shamieh, owner of CREAM. “We think it’s a great community.”

Pleasantly surprising was the amount of cream lovers who came out to taste the newly opened shop, with the grand opening of CREAM with array across the streets.

The perfect combination of homemade ice cream smushed between two warm cookies has put CREAM with mint chocolate chip ice cream.

“With CREAM you get a lot of flavor,” said Shamieh. “What else can you ask for?”

Most customers said they waited in line to find out what made CREAM so different from other ice cream shops.

Alex Moyer, a sophomore mechanical engineering major, enjoyed his unknown flavor cookies with mint chocolate chip ice cream.

“I get CREAM because it’s unlike any other ice cream,” Moyer said.

“The cookies are fresh so it melts in your mouth right away,” Moyer said. “It tastes like a home-made treat.”

One-horse PR firm’s vice president, De Vera said. “There’s loud music and there’s dancing and enjoying themselves...

I say ‘Hey, what’s up?”’ De Vera said. “A lot of them come here. ”

Jimmy Shamieh, Owner of CREAM

“This is exactly what we needed in downtown to help add all of this vibrancy to an area that’s really been growing around us, “Kalra said.

“From carnival cookies to a cup of joe-flavored ice cream, it’s a huge success. ”

“Cookies rule everything around downtown San Jose,” Shamieh said. “What else can you ask for? We’re excited.”

K alra said.

“I see a lot of my San Jose State friends and I say ‘Hey, what’s up? ‘” De Vera said. “A lot of them are singing and sometimes you hear them dancing and enjoying themselves...

In downtown right away, “Moyer said. “It tastes like a home-made treat.”

“With CREAM you get a lot of flavor,” said Shamieh. “What else can you ask for?”

More familiar San Jose State student faces are expected to be behind the counter at CREAM within the coming month after they complete their training.

CREAM expects to have students not only as team members, but also as a majority of the customers. Known for its atmosphere, CREAM means to provide a family-oriented environment for its customers.

On Saturday, workers at CREAM welcomed every customer with enthusiasm.

“When you walk through the doors it’s not like any other shop,” Shamieh said. “There’s loud music and there’s people behind the counter that are singing and sometimes you find them dancing and enjoying themselves while they’re working.”

More familiar San Jose State student faces are expected to be behind the counter at CREAM within the coming month after they complete their training.

“With CREAM being only two blocks away from San Jose State, it is a perfect dessert destination for any student dealing with finals or midterm exams, according to Shamieh.

“Just like that CREAM gives you brain energy,” Shamieh said. “So if you want it’s on these exams and you want to graduate with honors the secret is do it in CREAM.”

California's drought is making winter feel like a terrifying Spring

We all need to educate ourselves about water conservation and climate change.

As California contends with yet another dry year, it's clear that we must take action to conserve water and protect our environment. Here are some tips for doing so:

1. Use water-efficient fixtures such as low-flow showerheads and faucets.
2. Fix leaks promptly to prevent water waste.
3. Water your lawn in the early morning or late evening to reduce evaporation.
4. Collect and use rainwater for irrigation.
5. Use a broom instead of a hose to clean driveways and sidewalks.

By taking these steps, we can all help to conserve water and protect our precious natural resources. Let's work together to make a difference!

The Trans-Pacific Partnership (TPP) is a secret trade deal currently under negotiation among 12 countries, including the United States, Australia, Canada, Chile, Japan, Mexico, Peru, Singapore, Brunei, Malaysia, Vietnam and New Zealand. The TPP is being sold to the public as a means of increasing trade and improving the economy, but in reality, it is a corporate power grab that would allow companies to sue governments for making laws that infringe on their profits. It would also enable corporations to sue countries for making laws that are in the public interest, such as protecting the environment or limiting the use of fossil fuels.

In the United States, the TPP is being pushed by the Obama administration, which has promised to have the deal ready for negotiation before the 2016 presidential election. However, there are growing concerns that the TPP is being rushed through the legislative process and that Congress is being kept in the dark about the具体内容 of the agreement.
