Buy Bonds And Stamps

The War Bond and Stamp campaign opening on May 26 is an example of a sound, honest effort that asks a sacrifice from the public for manifold social and personal future needs. Efforts that ask a sacrifice are usually unpalatable, and forceability is undesirable as self-prophecy. Utility to ascertain the future voluntary support of the country is necessary. (In fact, it is necessary.) To all the ramifications of the word justice, we think, and every student thinks, that he should.

The War Bond and Stamp drive is merely an intragovernmental gigantic, vital issue of our very existence as a thinking and forceable people. It relies strictly on the integrity of United States college students form a major and important sector of the armed forces and as such are liable to the duties of the public.

JENNINGS, HADLEY, CHAMBERS TO AID GENERAL INMAN IN PLEDGING SAN JOSE STATE STUDENTS 100 PERCENT

The War Bond and Stamp drive will break with full force today in what officials term the biggest victory campaign in the history of the country. Bigger things are predicted for the effort than ever achieved in the World War I victory drive.

General "Babe" Inman announces that his campaign on-campus will be featured by intense competition among the Red, White, and Blue armies commanded by Bob Jennings, Ronald Hadley, and Ed Chambers, respectively.

In a statement to his armies, General Inman emphasized the fact that San Jose State college was under the eye of the community; that he and his minute-armies were out 100 per cent behind the War Bond and Stamp effort; and that the armies' aim was "every college student and faculty member pledged."

Army leaders and minutemen received instructions regarding the procedure in pledging at the rally held in the Civic auditorium last night. College armies attended in bodies together with students from the Junior-Senior mixer.

Inman urged college students and faculty not to sign more than one pledge book. "It is not how much you pledge; it's the fact that you pledge that counts."

The campaign is being conducted on-campus in conjunction with a nation-wide effort. The on-campus phase of the effort is being sponsored by the Spartan Service and Defense council headed by Rev. Gardiner.

Lieutenant - Generals Bob Jennings, Ronald Hadley, and Ed Chambers each vowed to leave no stone unturned in their efforts to secure more pledges than their competitors.

Early this morning each member of the campus armies will exchange a card which he will exchange with his general for a pledge book. Minutemen will then be free to ask pledges from all college men and women.

"It cannot be emphasized too much that pledges will not commit themselves legally by signing the minutemen's pledge book. Their only obligation will be a moral one to help defeat our enemies," Inman stated.
