HARTFORD REPORTS ON P. E. DEPARTMENT AT WEEKLY COUNCIL MEET

Highlighting yesterday’s council meeting was the appearance of Glenn (Ting) Harttard who reported on the workings of the Physical Education department. Harttard explained that during normal years a graduate manager is selected who takes care of the budget for the various sections of the departments and carries other athletic responsibilities. During the past few years no such person has been appointed, and consequently, the P. E. faculty must act alone.

Enumerating the expenses of the department, Harttard explained the insurance charges, publication charges, and allotments for the various sports.

Spartan quintet will tangie with Mare Islanders

The rapidly improving, rejuvenated Spartan quintet engages Mare Islander Colonnade in a hard fought battle tomorrow night. Due to the turnover of the team the coaches have been forced to pick up new blood from the ranks of the Sophomore basketball team. The new blood, however, is not of the original five, but is the result of the various sections of the departments and carries other athletic responsibilities.
