

## Council Approves Proposals

Proposals for two amendments to the ASB constitution which will lower the percentage of signatures required for initiative and recall petitions were approved by the Student Council this week.

The proposed amendments must pass the ASB election next semester by two-thirds of the votes cast before they become effective.

The recall amendment lowers the required number of signatures needed on petitions to remove elected or appointed officers from office from 15 to 10 per cent of the total members of the ASB.

Under the initiative amendment, by-laws or other measures may be placed before the ASB for revote by petition of 10 per cent of the student body.

The constitution now requires 15 per cent of the ASB petition the Student Council for initiative measures.

According to a memo issued to the Student Council from the office of Executive Secretary Everett Avila, the purpose of the amendments is:

"... to provide San Jose State with a more representative student government. They (the amendments) reduce the percentages for initiative and recall to a more practical level, thereby making our government more responsive to the wishes of the entire student body."

Action for the amendments was initiated by the Constitutional and By-Laws committee and Avila, as executive secretary.

Bill Erdman, chairman of the committee, said he felt the proposed amendments will make for "... a more workable situation. I believe it will help to provide us with a more representative government."

Other members of the committee are Gary Wood, Jud Clark and Peter Briggs.

## Civil Defense at SJS

# Preparing for Survival

Editor's Note: This is the last in a 3-part series dealing with civil defense, 1961.

### BY LESTER ON

Historically, America has never been prepared for a war. Yet it has never been invaded or defeated.

Since 1776, however, the world has drawn so close that destruction, according to Dr. Edward Teller, renowned scientist, is only 20 minutes away.

It is a verified fact that automobile accidents have taken a greater toll of American lives than the combined deaths of all the wars in which America has fought. The intense international situation today can change the record at any moment.

There are those who say shelters are not the answer. They would rather that the efforts now being expended on civil defense be channeled into disarmament efforts. The record on such efforts, however, is not very encouraging.

When the massive problems of civil defense and the intangibles of a nuclear attack are considered, one wonders how such a huge undertaking can be successful at all. There are those who feel it is a hopeless task in a hopeless world.

Yet, after many years of groundwork, it appears that shelters, while not the complete answer, are still the best hope for survival. "There's bound to be some protection," A. P. Hamann, city manager of San Jose, said in a recent interview.

To Dr. Frank G. Willey, SJS civil defense coordinator, "It's better to have shelters and not need them than not to have shelters and need them."

There is no doubt many will die in a nuclear war. While conceding that there might be 50 million Americans killed and 20 million seriously injured by a massive hydrogen bomb attack, Defense Secretary Robert S. McNamara said no financially feasible program could prevent it.

# SJS Homecoming Princesses Chosen

An audience of nearly 1200 students watched 10 semi-finalists compete for the coveted title of the 1961 San Jose State Homecoming Queen last night in Morris Dailey auditorium.

The sponsoring organizations waited for 30 tense minutes before the five princesses were announced. The five, from which the Queen will be formally presented at tonight's Coronation Ball, are: Sharon Brantley, Kit Fox, Raylene

Hermann, Judy Osborne and Pat Travis. The 10 coeds paraded individually before a panel of three judges, seated with the audience, who carefully jotted down notes.

Each contestant walked onto the stage twice — the first time in sports clothes and the second clad in formal gown.

While the coeds changed into the formal gowns, Jeff Davis' combo provided musical entertainment for the audience. Resuming

their appearances, each coed gracefully paraded under a spotlight before taking a position on the stage.

After all 10 semi-finalists had appeared, the three judges, Emily McAdams, fashion coordinator at Macy's Stanford; Barry Baxter, IBM public relations executive, and Chere Canaris of the John Robert Powers modeling agency, filed out of the auditorium carrying their clipboards with the all-

important notes attached to them. The combo again played and Jeff Davis sang.

Ten minutes later the judges re-entered through a side exit amidst applause. But announcement of the princesses was not yet to come.

Linda Ross presented a short history of SJS Homecoming and presented two former Homecoming Queens: Mrs. Anna B. Bats, 1956 queen, and Marcia Day, 1959 queen.

Following the brief program, the princesses were presented, one at a time, amidst the loud clapping and shrill screaming which burst from the audience.

Summing up the feelings of the five princesses: Kit Fox, "... a thrilling experience." Sharon Brantley, "... very surprised and happy." Pat Travis, "... I couldn't believe it." Judy Osborne, "... how wonderful," and Raylene Hermann, "... It's marvelous."

# Spartan Daily

SAN JOSE STATE COLLEGE

VOL. 49 SAN JOSE, CALIFORNIA, FRIDAY, OCTOBER 27, 1961 No. 23

## Senior Pictures Deadline Nov. 8

Nov. 8 is the deadline for making appointments in the student affairs business office, TH16, to have senior pictures taken for the 1962 La Torre.

Fifty cents will be charged when making the appointment plus \$1 at the time of the sitting. Photographs will be taken in the AWS lounge of the College Union, 315 S. Ninth st., Nov. 14 to Dec. 7.

Senior members of fraternities and sororities will be scheduled with their own organizations rather than for individual appointments.

## Friday Flicks

"Desiree," starring Marlon Brando, Jean Simmons and Merle Oberon, is the movie scheduled for tonight's Friday Flicks at 7:30 in Morris Dailey auditorium.

The film, based on a novel by Annemarie Selinko, deals with the character and background of Napoleon, told from the standpoint of his thwarted first love.

Admission for Friday Flicks is 25 cents.

## Student Sees Trial Session Of Eichmann

Francis Azimi, graduate student from Iran, believes Adolf Eichmann, wartime head of the Nazis Gestapo Department for Jewish affairs, will be sentenced to life imprisonment by the three Jewish judges who are presiding at his trial.

The social science major who spent 10 days in Israel this summer, bases this prediction on his attendance at a session of Eich-

FRANCIS AZIMI ... Eichmann trial

mann's trial and talks with Israeli citizens.

Azimi obtained a ticket for one session of the trial from the government tourist office. Only 25 people were admitted at any one time to the trial.

"You were searched before entering the auditorium and your passport was taken from you," said Azimi, who was a member of the ASB judiciary board last semester.

There were three television screens in the auditorium so members of the audience could see the actual proceedings and also the TV coverage, reported Azimi.

Ear phones were provided for everyone in the audience so the trial could be heard in English, French, or German. The court proceedings were in Hebrew.

In his talks with college students, teachers and people waiting to attend sessions of the trial, Azimi found that these people believed Eichman was guilty.

They felt the trial was to publicize Israel, the Jews and the crimes against humanity that were committed during World War II, said Azimi.

If Eichmann is executed the case will be dead, but if he is given life imprisonment then it will always be a live issue, Azimi explained.

## 'General Excellence'

# Lyke Places First In National Contest

Lyke magazine has been awarded first place for all around general excellence in the 1961 campus magazine contest at the national convention of Sigma Delta Chi, national professional journalism society, in Miami Beach, Fla.

Wilford Keener, president of SJS undergraduate chapter of SDX and convention delegate, received the award for Lyke at a luncheon at the Fountainbleau hotel in Miami Beach.

Keener was selected over SDX undergraduate representatives from journalism schools across the nation as one of two new members of the SDX five-man theme committee.

Ron Miller from SJS received first place for spot news photographs in the 1961 student photo contest for pictures taken last semester of the Harry Campbell professional bout where the SJS boxer was killed. These photographs were reproduced in Lyke last spring.

Other California schools receive-

ing awards were UCLA, second place sports, and USC, second place editorial. Floyd G. Arpan, vice president of undergraduate chapter affairs, made the award presentations.

Governor Nelson A. Rockefeller of New York is scheduled to speak at the convention today. Tomorrow McGee Bundy, special assistant for national security, will address the convention delegates.

## Lyke To Go on Sale

SJS campus magazine Lyke goes on sale Wednesday for the first time this semester with a six-page feature prediction of SJS football team, illustrated with photographs of the recent Stanford game, according to Pat O'Daniels, editor.

Also included in the magazine will be an interview with "Mr. Jazz" Dave Brubeck and his quartet. Additionally there is to be a special interview with Brent Davis, ASB president, concerning various campus projects.

Three dolls, kept secret until sales day, are focal points in the magazine. The usual articles, fiction, cartoons and jokes will also be a part of Lyke.

O'Daniels reported an increase in publication of 1000 more Lykes from the usual 3500.

## Prof To Appear On KLOK Show

Dr. William Lorell, head of the Civil Engineering department, will be featured on Showcase-San Jose State this week. He will appear with two civil engineering students in an interview on "career forum." Also featured will be foreign students from China and India.

The program broadcasts over KLOK, 1170 kc, Sunday at 9:30 p.m.

Featured on "Perspective," the speech and drama television production, will be Dr. Theodore Balgooyen, associate professor of speech, on "Semantics." The show is aired over station KNTV, channel 11, Saturday at 10 a.m.

# • world wire

## EICHMANN CASE STILL UNDECIDED

JERUSALEM, Israel (UPI)—The three judges pondering a verdict in the Adolf Eichmann case have given no indication since the trial adjourned last Aug. 14 when they will hand down a judgment. At the conclusion of the four-month trial it was announced that a ruling on Eichmann's fate would not be delivered before November. This was taken to mean any time after Nov. 1. But present indications point to a date some time in December, court sources said.

## X15 SPEED FLIGHT SET FOR TODAY

EDWARDS AFB (UPI)—An all-out speed flight of the experimental rocket plane X15 was canceled minutes before take off yesterday because of unfavorable weather over this desert base. The National Aeronautics and Space Administration rescheduled the attempt, planned for at least 4090 miles and hour, by Air Force Maj. Robert White for today.

## SJS Queen Announcement At Ball Tonight

A reversal of the well-known Cinderella fairy tale will occur tonight at the Coronation Ball, when one of San Jose State's fairest coeds is transformed into the 1961 Homecoming Queen.

Unlike the fairy tale Cinderella, San Jose State's modern-day queen will be crowned at 10:30 p.m. and will remain royalty throughout the Homecoming festivities.

Five finalists for the regal honor were chosen last night in the annual homecoming fashion show held in Morris Dailey auditorium. They are: Sharon Brantley, sponsored by Sigma Alpha Epsilon fraternity; Kit Fox, sponsored by Alpha Chi Omega sorority; Raylene Hermann, sponsored by Delta Upsilon fraternity; Judy Osborne, sponsored by Kappa Alpha Theta sorority; and Pat Travis, sponsored by Delta Sigma Phi fraternity.

Beginning at 9 p.m., the Coronation Ball will continue to 1 a.m. at the San Jose civic auditorium.

Free bids for the semi-formal affair will be available from 9:30 a.m. to 2:30 p.m. in front of the Spartan bookstore, according to Mike Collins, publicity chairman for the SJS Social Affairs committee. SAC is sponsoring the ball.

An Air Force honor guard will present the queen and salute her with sabres. Miss Bonnie Corbin, homecoming queen chairman, will announce the queen, and Miss Sharon Brantley, homecoming committee chairman, will crown her majesty.

Music will be presented by Dick Reinhardt and his 12-piece orchestra. Reinhardt performs at The Village in San Francisco and at the Ali Baba in Oakland.

Entertainment will be presented also, stated Collins.

Refreshments will be available at a concession booth outside the auditorium, he added.

## Entry Blanks Due For Spardi Contest By Nov. 3 in A129

The deadline for entries to the Rally committee's Spardi head contest is one week from today. Entry blanks may be obtained until then in A129 from 10-12 a.m. and 1-3 p.m.

The contest is open to both students and faculty members, according to Keith Nicoles, contest chairman. Prize for the winning entry will be two \$25 gift orders from Mosher's and Roos Atkins, local clothing stores.

The purpose of the contest is to get designs for a new head for Spardi, SJS mascot, who appears at SJS sports events and other campus activities. His head was lost last month prior to the SJS-University of Pacific football game.

A new head will be made from the winning design by a theatrical firm.

## Police Prof Says Human Relations 'Not Needed Here'

A conference in which Prof. Willard E. Schmidt, head of the SJS Police school, explained to the City Human Relations Commission chairman, Ben Avrech, that SJS has no need for a human relations course was held Wednesday at City Hall.

The conference was held at the request of Avrech, who felt that a human relations course for student police majors was needed at SJS.

In the conference, also attended by San Jose Chief of Police Ray Blackmore, Schmidt explained that police majors receive an understanding of human relations in such courses as sociology and psychology.

The commission's main duties are not "merely to pursue investigation of offenses after they have been committed, but to help develop a climate of acceptance and mutual understanding in which acceptable social relationship will flourish," Avrech said.

Avrech had felt that police officers would benefit by the human relations course but agreed with Professor Schmidt that since such learning was integrated with other courses there was no need for the class.

STUDYING A CIVIL DEFENSE MANUAL is Dr. Frank G. Willey, SJS civil defense coordinator. The drawer, at the lower right, shows the voluminous information Dr. Willey must study to adapt SJS facilities for shelter purposes.

## LITTLE MAN ON CAMPUS

"AS CHAIRMAN OF OUR HIGHER ACADEMIC STANDARDS COMMITTEE, I CONCLUDE THERE IS ONLY ONE WAY WE CAN RAISE 'H' HOUSE GRADE AVERAGE — CHEAT."

## Head Security Officer Ralph Gough Named Campus Safety Coordinator

Ralph C. Gough, head of the SJS campus security police has been named by Pres. John T. Wahlquist Campus Safety Coordinator for the 1961-62 Academic year.

The new position will give SJS the only official appointed to that office in the California state college system.

Since the college system does

not indicate establishment of such an official Gough will assume his duties on a half time basis.

Gough said his new position will be to channel the safety needs of all departments through his office and thus relieve each department of having to establish and enforce its safety regulations.

Gough added he hopes establishment of the office will create a need for such a position on the remainder of the state colleges.

Need for such a position was presented on May 13, 1959 to Pres. Wahlquist by the Campus Safety Committee who felt many safety services were being neglected because of overloads on busy administrative personnel; other similar institutions of higher education had similar programs and private companies smaller in size than SJS had already established such an office.

First on the agenda for Gough will be to survey the SJS campus to study safety problems, contact department heads on safety and hold discussions with city safety officials.

He added he would also visit Stanford university and the University of California at Berkeley to study their safety programs. The Safety Committee, in its 1959 report, stated the Berkeley campus had a staff of "30 to 40 people engaged in safety, environmental health and sanitation."

Gough said the goal of the new position will be to permanently place SJS on a safety basis comparable to other institutions of higher education of the same size and also to integrate safety thinking at all times among college personnel.

## Play Within Play Describes, Porter Hit, 'Kiss Me Kate'

A play within a play ably describes "Kiss Me Kate," Broadway musical by Cole Porter, to be presented by the Associated Glee Clubs Nov. 16-18, in Morris Dailey auditorium.

Shakespeare's "Taming of the Shrew" plays an important role in carrying out the plot of "Kiss Me Kate" which involves a couple on the first anniversary of their divorce.

Dr. Gus Lease, associate professor of music, will continue as musical director and general director of the production. Dr. Hartley D. Snyder, head of the Music department, announced yesterday. Dr. Lease is expected to return to his teaching duties in a week, the department head reported.

**CAST INCLUDES**  
Members of the cast include Ken Hunter, Margie Brown, Joan Moffitt, Ray Gouveia, Bob Cunningham and Gordon Thorlakson. Others are Jack Lindsay, Dick Oglesbee, Dennis Chamberlain, Lynda Jansen, Thomas Atkins, David McClellan and William Costa.

Set designs were done by Dennis Berger, commercial design major. Dancers for the show will be trained by Miss Margaret Lawler and Miss Carole Smith, instructors in the Physical Education department. In charge of costumes is Susan Moss.

Bob Cunningham is stage manager with Howard Mayling in charge of lighting.

Six weeks will pass from the time of casting until the curtain goes up on opening night, Dr. Lease explained.

The chorus will be composed of 22 members. More than 80 costumes will be used for the production.

## Music Fraternity Men Will Attend S.F. Workshop

Nine officers of Phi Mu Alpha Sinfonia, national men's professional music fraternity, will attend a province workshop Sunday in San Francisco. Thomas E. Eagan, professor of music, as province governor is in charge of the meeting.

The biannual workshop offers a place where officers of the various chapters learn of their duties.

Professor Eagan is one of two province governors in California. Chapters in his jurisdiction are University of the Pacific, Fresno state, San Francisco state, Sacramento state colleges and SJS.

Members of the fraternity attending the workshop are Rowland Schwab, president; John Currey, vice president; Donald Chan, secretary; Patrick McFarland, historian; Donald Nelson, social chairman; Glenn Norrish, publicity chairman; Louis Pullis, pledge master; Josef Calkins, alumni secretary and Jess Russell, choir director.

## Love for Puppy Spares Jail 'Visit'

INDIANAPOLIS, Ind. (UPI)—Because of his love for a little dog, Karo Gamble became a free man today.

"Happy as a lark," the 56-year-old Negro walked out of the jail where he was serving a 90-day term for vagrancy. He hurried to the city dog pound to pick up the only friend he has in the world, a tiny mongrel pup named Waterloo.

"This is the greatest thing in the world — them turning me loose," he said.

Gamble's happiness matched his misery of only a week ago, when police came to his cardboard shack and arrested him. Gamble, thinking Waterloo was headed for the dog pound and destruction, fell to his knees and hugged the dog.

The drama was caught by an alert newspaper photographer. Hundreds of persons from all parts of the country offered help to save Waterloo.

Today, Municipal Judge Noble Percy suspended Gamble's sentence and fine. He reasoned that a man who loves a dog that much shouldn't be locked up.

Percy said "this man is getting another chance."

## Racial Policy Differences Exist In Southern Rhodesia, South Africa

(EDITOR'S NOTE: The future of the white man in Africa is at stake in the emergence of newly independent nations on that continent and growing restlessness in others. In the following dispatch, Wilbur G. Landrey, UPI manager for Africa, tells how two African nations with white governments are using basically different approaches to meet the problem of white survival.)

**By WILBUR G. LANDREY**  
SALISBURY, Southern Rhodesia (UPI)—To the outside world, South Africa and Southern Rhodesia are merely two aspects of white supremacy in action. But in fact they represent two basically opposed approaches to a basic question: what is the future of the white man in Africa?

As in South Africa, Southern Rhodesia has a white government. But unlike South Africa, where the whites form a sizable block of more than 3 million persons, there are fewer than 250,000 Europeans in Southern Rhodesia, and they are outnumbered by the Africans 13 to one.

In a recent referendum, the overwhelmingly white electorate of Southern Rhodesia approved a new constitution admitting 15 Africans to a 65-member parliament and outlawing racial discrimination in future, but not existing laws.

Some forms of racial discrimination are being abolished, but they are not disappearing quickly enough for the African. The fact that Africans now are admitted to a few luxury hotels is more than offset by the African belief that the white man is determined to preserve his privileges at all costs.

Black Nationalists are not prepared to accept either the uncompromising Apartheid of South Africa, or the watered down liberalism of Southern Rhodesia. What they want is "one man, one vote," a policy which would put black government in power in both countries.

**DIFFERENT APPROACHES**  
The whites of South Africa and Southern Rhodesia have different approaches to racial politics, but both feel bitter about their overseas critics. They say the critics not only fail to understand African problems, but have no stake in Africa and therefore nothing is lost by proposing radical solutions.

Whites have settled in Southern Rhodesia only since 1890, when Cecil Rhodes sent his "pioneer column" to establish what is now Salisbury. In that time the settlers, with the help of black labor, have built a modern

country with a shining skyscraper capital.

In contrast, the first white settler landed in South Africa more than 300 years ago, when the black African tribes were still migrating from the north. Both white and black drove out the primitive earlier inhabitants. In a sense, both are settler groups.

Black and white clashed, the original Dutch settlers triumphed, and their descendants, the Afrikaners, appear determined to keep a tight hold on their rule. The common reaction is: "We have no intention of handing over this country we have built up from scratch to the natives."

World criticism has not deterred the government, nor has criticism from a handful of liberal whites at home.

**BANTUSTANS**  
The National Party government of Premier Hendrik Verwoerd visualizes a number of "Bantustans"—African tribal areas that gradually will be allowed to develop toward self-government, if not full independence. Whites, the government says, will have as few rights in the Bantustans as blacks do in the "white" areas.

But the black areas are overcrowded and under-developed and, in any case, biology has favored the Africans. Even in the 12 largest cities, where half the white population is concentrated, the blacks outnumber the whites five to three, and they are increasing faster.

Few of the 3 million Africans in the cosmopolitan cities are interested in returning to their tribal lands. They want to work and share in the prosperity of the developed "white areas." And ready or not, the younger Africans, with a look at the rest of Africa, want power.

**WHITES HOLD POWER**  
Southern Rhodesia, where the white population is too small to fit into a pattern of "white" and "black" areas, has a more pragmatic approach to the problem. The whites hold power today, but they are prepared to share it gradually with the Africans as the blacks adopt "civilized" standards.

The new Southern Rhodesia constitution sets qualifications of education and property for the voter. The Southern Rhodesian government recently voted an additional one million pounds for African education, to speed the "civilizing" process.

Some political observers say that if every African now quali-

fied to vote were on the roll, the Africans could win 3 or 4 of the 50 "open" seats in addition to the 15 specially allocated to them under the new constitution. In theory, the Africans can gain a majority within this generation, as soon as enough African voters qualify.

But African nationalists are not willing to wait that long. They also are mistrustful that the whites will try to change the rules if the blacks approach real power. Low African wages and racial discrimination in residence, land and jobs rankle deeply.

Fifteen years ago there was little to distinguish race attitudes in South Africa and Southern Rhodesia. Both were steeped in the traditions of white supremacy. Now the two are following divergent paths, but for Southern Rhodesia the concessions may be too small and too late.

One prominent African in Salisbury said recently "The whites are coming to accept multi-racialism but the blacks will not—now."

# Square Dance Slated At Weekend Co-Rec

Have a little of that good old country spirit left in you?

A social hoe down will be presented in the Women's Gym tomorrow night from 8 to 11 o'clock, sponsored by the weekend Co-Rec committee.

According to Chairman Jim Pekkain, you needn't know how to square dance to attend. "You can learn while having fun," he remarked.

Free refreshments will be served, but 40 cents a couple will be charged at the door.

"Women should wear full skirts and comfortable shoes," said Pekkain.

Students may participate in the usual weekend Co-Rec activities of badminton, swimming, ping pong, basketball, volleyball, and chess Saturday afternoon from 12:30 to 4:30 o'clock in the Men's Gym, added Pekkain. This week the gym will be opened to all student and faculty families.

# Law Test Applications Available

Applications for the national law school admission test to be given Nov. 18 are now available in CH211, political science office.

Testing centers nearest San Jose are Stanford university and University of California, Berkeley.

The test is administered by the Educational Testing service, Princeton, N. J. Applications for the Nov. 18 offering must reach Princeton not later than Nov. 4, according to Dr. T. M. Norton, pre-legal adviser.

The test, which is required by most law schools, will also be given Feb. 10, April 28 and Aug. 4.

HAPPY HALLOWEENER—Practicing his manners, Joe Medal, SJS student, is getting in the horror of it all in preparation for the Tri-C Ghost Walk and costume party tonight at 7:30 at Third and San Antonio sts.

# 'Have Not' Nations Need Economic Aid

"In search for security against each other, the U.S. and the Soviet Union are creating considerably more insecurities."

This statement was made by Dr. William Stanton, associate professor of economics, during a discussion of "The Economics of Disarmament" yesterday at the Thursday noon forum in the Roger Williams house, 156 S. 10th st.

He added that a meeting of the minds of the "have" nations and a resolution to help the needy countries would be the only factor that would prevent a struggle between the rich and poor nations. He was quick to point out, however, that this is not likely to happen while the cold war continues.

Dr. Stanton named Russia and

the U.S. as the "have" countries and the underdeveloped countries such as China, India, and Liberia as the "have not" countries. He said if conditions do not alter by 1975 it seems probable that the "have" nations will find themselves involved in an existence struggle against the "have not" nations.

FANTASTIC AMOUNT  
Dr. Stanton said the amount of money being spent on armaments is fantastic. He added the U.S. spends almost \$50 billion yearly for armaments but only \$25 billion for education and \$25 billion for medical care. Approximately 5 to 7 per cent of the world output is spent yearly on armaments.

He commented that if all this money could be used to aid countries with enormous populations, such as China and the nations of South America, the outlook for the future would be considerably better.

The rate of population increase presents a great problem to these countries and it is one with which they cannot cope with unless the advanced nations offer help. He asked what other countries can afford to give aid besides Russia and the U.S.?

# Card Stunt Section To Use Computer

Half-time card stunts at tomorrow's Stanford-UCLA football game will be controlled by a computer.

Two math students, Larry Breed and Earl Boebert, from Stanford university have thought of a way to use the machine for card stunts. Instructions are fed into the computer and it prints which cards should be flipped.

Usually artists draw a stunt and freshman girls note what card each of 3465 rooters are to turn during the 100 different "flips" in 10 different stunts.

The manual method required about 400 man-hours of work and the computer does it in three hours, according to Prof. George E. Forsythe, the math students' instructor.

He also said the new method will permit more accurate and complicated stunts to be used.

Breed and Boebert, now seniors, began the work nine months ago as part of a course given in Stanford's computer center.

Prof. Forsythe, director of the center, suggested the project, backed the students and arranged free time on the center's big Burroughs 220 computer.

In the future, he said, students will probably get more daring and do many "moving" stunts in which players and footballs will glide gracefully and evenly across the rooters' cards. Abstract art is another possibility, he said.

# Percentage of Students Working Lower Today

The percentage of college students with scholarships and jobs to help pay the cost of their education is less today than it was five years ago, according to one of the country's top experts on financing a college education.

Rexford G. Moon, director of the college scholarship service of the College Entrance Examination board, said yesterday that the proportionate drop in scholarships and jobs occurred despite a 50 per cent rise in available college funds.

Between 1955 and 1960, median tuition costs rose about 30 per cent while the percentage of scholarships granted to full-time undergraduate students fell from 14 to 11 per cent, according to Moon.

In 1955-56, scholarships totaling \$66 million were given to 237,370 college undergraduates. In 1959-1960, available scholarships increased to \$98 million, but the number of students receiving them rose only to 288,000.

PERCENTAGE DROP  
The percentage of students holding jobs has also fallen in the five-year period. In 1955, 16 per cent of the total enrollment of college students held jobs; in 1960, 14 per cent.

Jobs valued at \$66 million were held by 288,479 undergraduate students in 1955-1956. In 1960, \$98.9 million worth of jobs were held by 347,678 students, a 2 per cent drop in terms of total enrollment.

Moon also called for a reversal of the trend of awarding scholarships to students "from the middle

class, while loans and jobs are reserved for the most impecunious students."

SCHOLARSHIPS FOR NEEDY  
"Loans and jobs should be reserved largely for those with small need or economic security," the scholarship director said. "Scholarships are for the really needy student from insecure financial circumstances."

The parents of 70 per cent of those students granted loans by the National Defense Education Act have incomes below \$6000, according to a report by the United States Office of Education.

Moon also criticized existing student loan programs.

"Do you know the cost of these programs to the parents?" he asked. "The family might have to pay as much as \$2400 to borrow \$10,000 over a six-year period."

# 'Don't Kill Santa'

WASHINGTON (UPI) — President Kennedy received this special note in the mail Wednesday from Marine City, Mich.: "Dear Mr. Kennedy,

"Please stop the Russians (sic) from bombing the North pole. Because they will kill Santa Claus. I am 8 years old. I am in the 3rd grade at Holy Cross School.

"Yours truly, Michelle Rochoe."

# Air Force Looks For More Women

The Air Force continues to have a heavy demand for female college graduates to enter their officer training school program, according to T. Sgt. Eugene G. Olin, local recruiting representative.

Officer Training school is a three-month course designed to produce officers to fill administrative, technical and scientific positions.

According to Sgt. Olin, the school is co-educational except for a few classes dealing with the WAF (women in the Air Force).

Successful completion of OTS leads to a commission as a second lieutenant with possible further training.

Only college graduates are accepted for OTS, but seniors may apply up to 210 days prior to graduation.

Detailed information concerning OTS may be obtained at the Air Force recruiting office, 40 N. Fourth st.

# Insect Control

NEW BRUNSWICK, N.J. (UPI)—Science may be on the verge of conquering the housefly.

Scientists at Olin Mathieson Chemical corp. said Wednesday that they have developed a new chemical that makes insects sterile. They said the development may be the turning point in the fight against houseflies, mosquitoes and other insects.

Insect control by inducing sterility looks very promising Olin scientists said.

## Communist Bloc Split Hinted in Red Congress

WASHINGTON (UPI) — Russian Premier Nikita S. Khrushchev's bitter attack on tiny Albania could precipitate an important split in the Communist bloc, according to Soviet affairs experts here.

This is one admittedly speculative judgment based on a study of proceedings at the 22nd congress of the Communist party now being held in Moscow.

Another view expressed was that Khrushchev successfully carried the day with his doctrine of peaceful co-existence and abandoned his deadline for a German peace treaty because it promised to embark him on a course which could lead to war.

Experts here also foresaw further humiliation for Georgi Malenkov, V. M. Molotov, Mikhail G. Pervukhin and other members of the so-called "anti-party group" denounced by Khrushchev.

**TRIAL UNLIKELY**

They might be drummed out of the Communist party, some experts said, and perhaps — although it seems unlikely — tried for their alleged misdeeds against the state.

Taken all in all, Khrushchev's 13 hours of speeches were regarded here as relatively mild. They seemed to reflect his appeal within the Communist world for peaceful co-existence rather than the Red Chinese theory of inevitable war.

## Turkish Nation Elects President

ANKARA (UPI) — Gen. Cemal Gursel, leader of the military coup that overthrew the Turkish government of executed Premier Adnan Menderes, was elected president of Turkey yesterday.

Gursel was chosen by the upper and lower houses of Parliament, receiving 434 of the 607 votes cast, 20 more than the necessary two-thirds majority.

## AMBASSADOR ARRIVES

## Three Jeeploads of Armed Soldiers Escort Civilian Car Into East Berlin

BERLIN (UPI) — The U.S. Army sent three Jeeploads of armed soldiers, with guns loaded and cocked, past Communist guards yesterday to escort an American civilian sedan into East Berlin.

A spokesman declined to disclose the contents of the message. But Watson visited Solov'yev Wednesday to protest East German harassment of American traffic across the East-West border.

Solov'yev rejected the protest and Watson informed Washington of what he called a "potentially serious" situation which had brought American tanks and troops to the border and put the entire 6500-man U.S. Berlin garrison on battle alert for nearly six hours Wednesday.

It was believed yesterday's message was a relay from Watson to Solov'yev of Washington's reaction to the Russian's statement that the United States must obey East German border regulations. The border regulations delayed trans-

## Yugoslavia's Andric Wins Nobel Prize

STOCKHOLM, Sweden (UPI) — Ivo Andric of Yugoslavia yesterday was awarded the 1961 Nobel Prize for Literature for his epic novels depicting "themes and human destinies" from his nation's history.

In Belgrade, Andric, 69, said he was a "very, very happy man" to become the first Yugoslav to win a Nobel prize.

"I am very moved," he said. "Everything that I wrote, all my work, is the literature of our country and myself."

Andric, a former career diplomat and one of postwar Europe's outstanding epic writers, was in-

## COMPUTERS CAN NOW TRADE DATA COAST TO COAST OVER TELEPHONE LINES

IBM has developed systems of computer-to-computer communication, which foretell the greatest advances in data processing since the introduction of the stored-program computer. These Tele-Processing® systems greatly extend the useful range of data processing — putting their power at the disposal of businessmen and scientists located miles away.

Now it is possible to transmit data between two computer installations at speeds up to 62,500 characters per second via broad-band communications channels. Any number of computing systems can be linked in this way in order to exchange information or feed it to a data processing center. As a result, although they may be separated by a continent,

computers can bring their capacities to bear on a single massive problem or operation.

There can be an exciting future for the graduate at IBM. The choice of jobs is wide. Advancement potential is excellent. All qualified applicants will receive consideration for employment without regard to race, creed, color or national origin. Whatever your talents and skills, there may be just the job you've always looked forward to after college. Why not find out by talking with the IBM representative when he next visits your campus? Or write, outlining your background and interests, to: Manager of Technical Employment, IBM Corporation, Dept. 896, 590 Madison Avenue, N. Y. 22, N. Y.

You naturally have a better chance to grow with a growth company

IBM will interview Nov. 28.

## Undefeated Harriers Meet Aspiring Gators on Traditional Course

By ED LEVINE

With a undefeated record so far this season the San Jose State cross country team challenges the

San Francisco Gators at S.F. today. Cross country coach Dean Miller expects the Gators to give the

Spartans some tough competition today.

Defending far Western Conference cross country champion Bill Morgan will lead S.F. Morgan had a record clocking of 16:51 over the 3.5 Lake Merced course last week against Humboldt college. The Gators defeated Humboldt 15-45.

SF coach Karl Gripenburg will field a quintet that can possibly carry the SF colors in the swiftest time ever made at SF according to Gripenburg.

SJS will bring a wealth of cross country talent with them when they meet the Gators. Jeff Fishback, who has won the Watermelon run and the big Cal, Tribe, and USC meet, will lead the Spartans.

Following close behind will be Charlie Clark, who holds the National Intercollegiate two mile record and placed fourth behind Fishback in SJS' upset win.

Expected to aid the Spartan cause over the tough Lake Merced course will be Horace Whitehead, Dan Murphy, Tom Tuite and Ron Davis.

The SF Gators will be looking for an upset win today over the strong Spartans. Coach Gripenburg knows a SF win would put the Gators in the limelight.

The ears of Stanford, Cal and USC are still burning from the thrashing the Spartans handed the trio at Berkeley last week.

Today the so called experts, that did not even see the San Jose cross country team in the West Coast line up, will be watching the Spartans very carefully at S.F.

Spartan eyes are already wandering to the West Coast Championships at Stanford on Saturday, Nov. 25. A bit premature? Maybe, we'll see.

## Basketball Mentor Predicts Balanced League Competition

Head basketball coach Stu Inman is enthused by the balance and depth of his 1961 San Jose State squad. Inman is currently rounding 16 Spartan cage candidates into shape for the season opener Friday, Dec. 1, against Chico state.

Four starters are returning from last season's SJS' quintet with only forward Norm Bostock missing. Center Joe Braun, forward Dennis Bates and guards Bill Yonge and Vance Barnes are back from a club that won 11 and lost 14 last year.

Inman looks for his team to improve but cites that the West Coast Athletic Conference is the best league from top to bottom.

# Daily sports

## Poloists Face Bears

San Jose State's varsity water polo squad journeys to the University of California campus tomorrow for an 11 a.m. clash with the undefeated Bears. A frosh contest will precede the varsity game at 10.

Fresh from a 14-6 victory over San Francisco state on Wednesday, coach Lee Walton's aquamen plan to change tactics in an attempt to turn the tables on the Bears. California defeated SJS 11-5 earlier in the season.

Coach Walton said the Spartans would play a ball control type of game in an effort to "hold Cal down."

SJS erupted for seven goals in the final period to break up a tight game against San Francisco state. Herb Matter paced the assault with three last quarter goals.

## Spartan Soccermen Face Tough Aggies

Facing the toughest home test they have faced all season the San Jose Spartan soccer squad encounters the Cal Aggie booters tonight in Spartan stadium at 8 p.m.

Threatening the Spartan perfect home record the Aggies will spring forth a team that has lost only one match to USF 2-1, posted a win over rugged Stanford, and has the lightning Escardo brothers.

Head soccer coach Julie Mendez will field a fully healthy squad. Both Slobodan Galeb, goal, and Gordon Stroud, right half, have recovered from injuries and will be ready to go at full speed.

This contest marks the last of the season's historic night matches.

Boasting of a 4-2 record, including a 2-1 win over Stanford and a 9-0 shutout over Menlo, the Spartan booters are looking for win number five.

Dismissing the Escardo brothers, which seems hardly possible, the Cal Aggies have a wealth of forcing students upon which to draw on. It is no wonder the Aggies have continually fielded strong soccer teams through out the years.

Spartan center forward Dietmar Demeter, who has averaged a goal a game, is expected to spark the SJS offense.

Providing speed for the Spartans will be Dennis Johnson, who has a 9.2 wind time in the 100-yard dash to his credit.

Senior Joe Battaglini, playing at inside right, has shaken off a bad leg ailment and continues to give the Spartans a tight defense.

Last week's trouncing of Menlo was partly due to the crowding play of the halfbacks Kirk Spyropoulos and Tony Zanotto.

A record crowd is expected tonight. Boosting the attendance will be the International Social club that is turning out in full force to view the game.

### TUG O' WAR

NEW YORK (UPI) — The tug of war was a regular Olympic Games event from 1900 through 1920 with the United States winning twice, Great Britain taking two victories and Germany and Sweden each gaining a triumph.

—photo by Rick Freedland

GROWING UP with SJS first string griddier Bill McGrath has had its rewards as well as drawbacks, says his pretty, brown-haired wife. "He used to practice hiking the football to me," Bev recalled "and I'd just stand there hoping it didn't hit me." The couple expects the arrival of their first child tomorrow.

## Guard Marries Hometown Girl

By MICKEY MINTON

Editor's Note: This is the fifth in an eight part series presenting the lives and roles of SJS gridders' wives.

A little boy and a little girl lived across the street from each other in Vallejo for about 10 years. They also shared the same telephone party line for a couple of years while in their middle teens.

The couple walked to and from school together. The little boy grew up to a height of 6 feet and weighed in at 207. His friend of the fairer sex also grew to be 5-8.

After being sweethearts for five years, periodically, through junior high and high school, Bill McGrath, SJS guard, and Bev Johnson became engaged.

The party line didn't work out as well as the senior McGraths and Johnsons had hoped since Bill had two brothers and Bev had two sisters who also crambled for telephone time.

The blue-eyed mother-to-be reported the whole family "could always tell when Bill was calling me since the phone had a strange ring." Bill had to dial a code number first then hang up until Bev answered.

"We used to go to my house for lunch," Bev, now 20, recalled. "Our food bill went up quite a bit," she confided.

"When we were younger Bill used to practice hiking the ball to me," Bev said. "I'd just stand there and hope it didn't hit me."

"My parents always liked 'my football hero,'" Bev said. "My father is a big football fan," she continued. "He followed Bill's career through high school and junior college and now he comes to the SJS games," Bev added.

### NEW AUTO INSURANCE SAVINGS ANNOUNCED

Savings up to \$120 on automobile insurance are now common for married men under 25 years of age with the California Casualty Indemnity Exchange.

"Married men in this age bracket are generally paying excessive premiums for the degree of risk involved," says George M. Campbell, Spartan Representative for the Exchange.

"We believe that a married man with family responsibilities is a more careful driver, and causes fewer accidents," said Campbell. "Therefore, he is entitled to rates for mature drivers."

For example: A married man, age 22 with Bodily Injury Liability \$10/20,000, Property Damage \$5,000 and Medical \$500 pays about \$157 a year with most insurance companies. With California Casualty he would pay about \$80 less \$16 dividend, or a net of \$64 (based on current 20 per cent dividend). Thus he saves about \$93 with the Exchange. (Other coverages with comparable savings).

Campbell declared that even unmarried men and women with good driving records may save over 20 per cent. Call or write for full information to: George M. Campbell, 566 Maple Ave., Sunnyvale; Regent 9-1741 (day & nite).

### Key Spartans Hurt

## Cougars Favored

Flying north for the third time this season, San Jose's footballers arrive in Spokane, Wash. this morning for tomorrow's game with Washington State's Cougars. The Spartans are rated one touchdown underdogs.

San Jose is in the worst shape of the season as far as injuries are concerned. Fullback Johnny Johnson is a doubtful starter with a turned ankle suffered last week at Oregon. End Ray Pena also hurt an ankle last week and may not play. Tackle Jim Cadile, first hit by a blood disease, suffered shoulder injuries against Stanford and will not play.

Washington state coach Jim Sutherland has issued a warning to San Jose.

"I know we'll put everything together one of these days, and when we do someone better watch out," Sutherland said he was pleased with the team's practice efforts Wednesday, adding that his team has been "trying too hard."

Coach Bob Titchenal announced that guard Ron McBride, end Chuck Elder and halfback Walt Roberts have been elevated to the starting unit for the Cougar battle. Tom Doslak will start in Johnson's place at fullback.

"Titch" has great respect for the great passing duo of Washington state . . . Mel Melin to Hugh Campbell. Campbell leads the nation in pass receiving with 33 receptions for 456 yards in 5 games. Melin rates seventh in the country in passing, 52 completions in 105 attempts.

San Jose's Chon Gallegos, on the other hand, leads all col-

legiate passers through six games with 62 completions in 105 attempts.

Washington state was dumped by Indiana last week by a score of 33-7.

San Jose State lost to Oregon, 21-6. In their last two contests, the Spartans have tallied only 12 points. Titchenal has indicated that some new plays have been added to the offense in an attempt to correct a slumping situation.

Sutherland made two changes in his line this week. Jim Jensen was installed at the left tackle spot, while Pat Crook will start at left guard.

Titchenal & Co. will be after revenge . . . the Cougars ran wild last season in Spartan stadium to whip SJS 29-6. In four meetings

with Washington state, San Jose has failed to win, but tied the Cougars in 1953, 13-13.

The game will be broadcast over Radio KEEN at 1:30 p.m. tomorrow. Earle Russell will call the play by play action.

### Top Scrimmages Highlight Frosh Winning Complex

Fighting off the staleness that comes with an open date the San Jose State frosh football team is engaging in vigorous scrimmages.

The Spartababes will have to face College of Sequoias at Visalia Saturday night, Nov. 4, at 8 p.m.

Frosh football coach Bob Jones has been very happy with the scrimmages in the past few days. He only hopes the luster of the top notch scrimmages does not wear off before the up-coming game.

As of this writing the team is physically fit and ready to take on all comers.

# Win \$100.00 a month for the entire school year with Sheaffer's "Pen Money" contest

### 2 FIRST PRIZES OF \$100 A MONTH

Winners (one man and one woman student) will receive a check for \$400 on Dec. 15th and \$100 a month beginning in January and ending in May.

25 SECOND PRIZES of a new Philco transistor radio

### IT'S EASY TO ENTER—EASY TO WIN! HERE'S ALL YOU DO

Just tell us in 25 words or less, what you like most about Sheaffer's all-new \$2.95 Cartridge Fountain Pen. Write your entry in ink on any sheet of paper, enclose it with the top of a package of Skrip cartridges, and mail it to: Sheaffer "Pen Money" Contest, P.O. Box 4399, Chicago 77, Illinois. Entries accompanied with your name, address, school name and class must be received by November 7, 1961.

Entries will be judged on the basis of their believability and freshness of thought. Judges' decisions are final and all entries become the property of the W. A. Sheaffer Pen Company. None will be returned. In case of ties, duplicate prizes will be awarded.

Every college student in the United States may enter, except employees of W. A. Sheaffer Pen Company, its subsidiaries, its advertising agencies . . . the independent company judging entries . . . and members of their immediate families. Contest subject to federal, state and local regulations. Winners will be notified by mail approximately four weeks after contest closes. List of winners available after close of contest if request is accompanied by stamped, self-addressed envelope.

Here are some of the things to keep in mind when you're writing about Sheaffer's all-new cartridge fountain pen

- For smooth, easy writing, there's no substitute for a Sheaffer fountain pen.
- Looks like a rifle with leakproof cartridges of world famous Skrip writing fluid.
- Fills quick, clean, easy . . . just drop a Skrip cartridge into barrel.
- Fits easily into a shirt pocket . . . comes in a choice of five smart colors.

## Former SJS Librarian Releases Fourth Book

An Oct. 30 publication date has been set on the fourth book of former SJS librarian Harold Witt, according to the MacMillan co., New York, N.Y. Witt was documents and reference librarian at SJS, 1956-1959. He has written full-time since leaving the college.

"Beasts in Clothes" contains a selection of poems written in four sections. The first section, "Nuns and Winos," is suggested by European places and works of art. "Barnyard Universe," is about places, things, people, birds and beasts closer to home, yet these everyday subjects suggest, to Witt, universals.

In the third section, "Beasts in Clothes," people are beasts and beasts are people and both share common characteristics. This section contains the central theme of the book, which is the similarity of all life, man's attempt to become civilized and his unavoidable animality.

The final section, "Siren Song," contains sonnets on a man's relationships with various women. is dedicated to Witt's wife Beth. The book, "Beasts in Clothes," and to his two children, Emily, 11, and Eric, 8.

Witt received his B.A. at the University of California and his M.A. at the University of Michigan. While working on his masters degree in 1947, he received the Hopwood Award for Poetry. He received his B.L.S. at the University of California.

HAROLD WITT  
... book published

Witt, who has been writing his college days, has had work published in The New Yorker, Saturday Review, Accent, and Quarto magazines, as well as many others.

Other books by Witt are "Family in the Forest," 1956; "Superman Unbound," 1956; and "The Death of Venus," 1958.

### PART TIME WORK MEN

19 or Older

If you are free from 5:30 p.m. to 10:30 p.m. four nights each week and on Sat., and are interested in working with a new liberal arts program, you may fit into one of two job openings. One in public relations, another in sales. If you are neat appearing and seriously interested in learning a new field while going to school, see Mr. Holman at 586 N. 1st, Suite 255. Apply on Monday, Wednesday or Friday evenings at 5:30 p.m. SHARP.

## AIS To Meet Monday Night

Voting slips for pending officer elections will be issued at the Monday meeting of the Associated Independent Students. The meeting will be held at 7 o'clock in E118. Possibilities for student government experience through an AIS office will be explored.

Other business to be conducted at Monday's meeting include ratification of the revised constitution and a progress report on the Homecoming float being built by the independent houses.

A special AIS committee will report on a meeting with the International Students organization held this week in an attempt to plan joint activities.

All interested students are invited to the meeting.

### MONDAY

Campus Christian fellowship, meeting, Memorial chapel, 9 p.m.

Associated Independent Students, meeting, E118, 7 p.m.

## Tom Cat Dies; Parrot Follows

SANTA BARBARA (UPI) — Grief over the week-old death of an 18-year old tom cat named Blackie was blamed today for the death of Loretta, a 98-year-old parrot owned by Mrs. Anna Fitzsimons.

Mrs. Fitzsimons said Tuesday night the parrot used to sit on one shoulder and the cat on the other while she watched television.

"Loretta never said a word and wouldn't eat at all after Blackie died," she said.

"I was born 100 years too early to see... MR. ROBERTS"

...but you're not!

EMPLOYING AIR CUSHION support upon which the vehicle rides, experimental man-carrying "air car" shown in diagram, being designed for likely use by the Army, can skim over land or water at speeds up to 50 miles an hour. The "Ejectijet," being developed by Martin co. in Orlando, Fla., utilizes the continuous recirculation of air to keep the vehicle aloft.

## Research Award To Geology Dept.

The SJS geology department has received a \$500 research grant from the Oredon Refining co. of Reno, Nev., according to Dr. Norman H. Dolloff, associate professor of geology.

The one year grant for research on treatment of various ores may be renewed next year, Dr. Dolloff said.

Dr. Dolloff is directing several undergraduate students in work on the treatment of copper ores at the present. The purpose of the research is to find out how certain minerals react under chemical treatment, he said.

## California Boasts 2nd Place Billing

The California state college system is now the second largest school system in the world; India's Calcutta university is the biggest with 120,000 students in 102 colleges.

A record total of 108,227 students enrolled at California's 15 state colleges this fall, 10.7 percent increase over the fall 1960 enrollment.

## ROTC To Honor Buell G. Gallagher In Ceremony Here

A presentation ceremony honoring Dr. Buell G. Gallagher, chancellor of the California state colleges, will be held Oct. 31 at the Reserve Officers Training Corps drill field at 1:30 p.m.

Dr. Gallagher will be presented the Outstanding Civilian Service medal by the United States Army for his "immeasurable contributions to the success of the United States Army ROTC at New York city college" during his presidency at that institution.

During the formal military ceremony the medal and citation will be awarded to the chancellor by Maj. Gen. William N. Gilmore, commanding general of the 15th United States Army Corps.

Members of the San Jose State Army ROTC unit, commanded by Lt. Col. Edwin T. Rios, will participate in the ceremony and will be reviewed by General Gilmore, Chancellor Gallagher and Maj. Gen. Raymond W. Curtis, retired, of San Diego, who recommended Dr. Gallagher for the award.

## FM Station for SJS May Operate in Spring

By JOE CRISCIONE

Hope has been expressed that San Jose State College will have its own FM station at the close of the fall semester by Dr. Richard Lewis, head of the division of audio-visual services, and Dr. Clarence Flick, associate professor of drama.

Approval of operation of an FM station and purchase of the necessary equipment has been given by the California State College Trustees.

Before final approval is granted, however, submission of the application in its final form must be made to the State Division of Communication, which then applies to the Federal Communication commission in Washington where channel allocations, call letters and other technical matters are acted upon. The completion of purchases of the 50-watt transmitter and other necessary equipment will be made by the State Purchasing Division.

The station, when in operation, will make SJS California's third state college offering FM service to students, faculty and community. San Diego and Humboldt state colleges have FM stations operating.

### STUDENT COMMITTEE

The idea for an FM station at San Jose State stemmed from a survey by a committee of students of the Radio-Television curriculum of the department of Speech and Drama. The survey was completed in January, 1960 and was designed to discover the extent of radio listening, program preference, and set ownership of SJS students. Survey results indicated a great majority of students felt the college should offer FM broadcasting.

In April of 1960 the SJS Radio and Television committee recom-

mended to President Wahlquist for support for construction and operation of an FM broadcasting station.

### ACTION TAKEN

The college took action on the recommendation the station would provide an opportunity for professional student training in Radio-TV and Journalism and Advertising programs, and provide a communication medium for reaching SJS students for educational purposes.

Pres. John T. Wahlquist has approved appointment of a subcommittee to develop and organize the procedures and policies for the station. Chairman of the committee is Dr. James W. Brown, dean of the division of graduate studies.

## Students To Send Good Luck Wires To Football Team

Good luck telegrams will be sent to the SJS football team again this weekend due to the success of last week's wires, according to Keith Nicoles, rally committee member.

Students may sign the telegram for 5 cents a signature at booths in front of the cafeteria from 9 a.m. to 3:30 p.m. A total of 238 students signed the wire for the Oregon game last week.

Campus groups wishing to send individual wires to the team should address them to the Desert Caravan Inn, Highway 395, West city limits, Spokane, Wash.

## Girl Watcher's Guide

Presented by Pall Mall Famous Cigarettes

Bare-Backed Beachbomb

## LESSON 2 - What about standards?

Advanced students of girl watching never waste eyeball effort watching girls who are not beautiful. Standards must be kept high.

But how do we judge whether a girl is worth watching? Although many strict academicians will shudder at our aesthetics, we must insist that a girl is beautiful if she is beautiful to you. (That's the beauty of girl watch-

ing. Every girl is beautiful to someone!) For example, many observers have pointed out that the Bare-Backed Beachbomb (see above) has a weak chin.

Yet none of these keen-eyed experts would deny that she is indeed an attractive specimen. And, speaking of standards, don't forget to keep your smoking standards high. Smoke Pall Mall!

## WHY BE AN AMATEUR? JOIN THE AMERICAN SOCIETY OF GIRL WATCHERS NOW!
